英文原文

For decades, the most heinous event in modern Thai history remained foggy in the awareness of the Thai people. During the carnage, news and information about it was tightly controlled as state propaganda ran rampant. Rumors and sensational stories swept across the country. Even a few decades later, despite a more open political atmosphere, the subject remained too sensitive to discuss in public. The massacre is difficult for Thai society to remember in any meaningful way for many reasons. The witnesses—be they victims, perpetrators, bystanders, or observers—were uncomfortable articulating their memories in either public or private settings. For those who did, their memories are difficult for the public and the younger generations to believe because the brutality was unprecedented. Photos and more facts emerged over the years. Yet Thai society remained ambivalent. Hence, for the first twenty years, the massacre stayed largely in the shadows, recognized and talked about in public only in a limited fashion. Ambivalence has persisted. Memories have changed. Thai society still refuses to fully confront the dark history of what took place on October 6, 1976. Silence, relatively speaking, is still in place.

几十年来，泰国现代史上最骇人听闻的事件，在泰国人民的认知中始终笼罩着迷雾。屠杀发生时，相关消息和信息受到严格控制，国家宣传则铺天盖地。谣言和耸人听闻的故事传遍全国。即使数十年之后，尽管政治氛围更加开放，这个话题仍然过于敏感，难以公开讨论。由于种种原因，泰国社会很难以任何有意义的方式记住这场屠杀。无论是受害者、加害者、旁观者还是观察者，这些见证者都不愿在公开或私人场合讲述自己的记忆。即使有人愿意讲述，其记忆也很难得到公众和年轻一代的相信，因为当时的残暴程度前所未有。多年来，照片和更多事实陆续浮现，但泰国社会仍然态度矛盾。因此，在最初二十年里，这场屠杀大体上一直处于阴影之中，只在有限的范围内得到公开承认和讨论。这种矛盾态度持续存在，记忆也发生了变化。泰国社会仍然拒绝充分正视1976年10月6日发生的那段黑暗历史。相对而言，沉默依旧存在。

[P002]

英文原文

This book is about the silence surrounding the tragedy. Its focus is not on what happened, but on the reasons and conditions behind the continuing ambivalence and on the changing memories of the massacre over the four decades that followed.

中文译文

本书探讨的是围绕这场悲剧的沉默。它关注的不是当时发生了什么，而是此后四十年间持续存在的矛盾态度背后的原因和条件，以及人们对这场屠杀的记忆如何变化。

[P003]

英文原文

The most obvious and straightforward reason for the silence is political. As I explain in chapter 2, the monarchy and the Buddhist order (the sangha) were involved in the conspiracy that led to the killings. To speak the truth about the massacre could be devastating to Thai society because the damage to these two most important spiritual institutions could have unimaginable repercussions. Besides, anyone who speaks the truth would be subjected to the draconian lèse majesté law, severe punishment without due process.1 The truth about the massacre is thus both suppressed and self-censored. Silence is prescribed by law but is also voluntary, in fear for oneself and concern for the country. Under the present political system, Democracy with the Monarchy as the Head of the State, as it is officially called, the memory and history of the massacre of 1976 remains in the realm of the unspeakable. This political situation is nonetheless the easiest reason to understand.

中文译文

这种沉默最明显、最直接的原因是政治性的。正如我在第二章所解释的，王室与佛教僧团（sangha）都参与了导致这场杀戮的密谋。说出屠杀的真相可能给泰国社会带来毁灭性的影响，因为对这两个最重要的精神机构造成的损害可能引发难以想象的后果。此外，任何讲述真相的人，都可能受到严苛的冒犯君主罪法（lèse majesté law）的惩处，在缺乏正当法律程序的情况下遭受重罚。　因此，屠杀的真相既受到压制，也受到自我审查。沉默既是法律所规定的，也是人们出于对自身的恐惧和对国家的担忧而自愿选择的。在现行政治体制——官方称为“以国王为国家元首的民主制”——之下，1976年屠杀的记忆与历史仍属于不可言说的领域。不过，这种政治处境仍然是最容易理解的原因。

[P004]

英文原文

In this book, I argue that silence about the massacre is attributable to more complex factors, namely, the “chronopolitics” of memory (that is, the changing politics and discursive conditions that affect memories), the ideological and cultural factors that are pervasive in Thai society, and the dominant public discourse at various times. The conflicts that ultimately led to the massacre were products of the Cold War, especially the domestic one, which lasted into the early 1980s. The post–Cold War conditions have rendered the memories of October 6 from the communist and anticommunist perspectives obsolete. Ideological factors have contributed significantly to the ambivalence and silence about October 6, namely, Thai historical ideology,

nationalism, the peculiar notion of individual rights and rule of law, and so on. Buddhism in particular is an important source of concepts that facilitate, shape, and limit the comprehensibility and meanings of the atrocity as well as how to deal with it.

中文译文

在本书中，我认为，对屠杀的沉默还源于更为复杂的因素，即记忆的“时间政治”（chronopolitics，指影响记忆的政治环境和话语条件随时间发生的变化）、普遍存在于泰国社会的意识形态与文化因素，以及不同时期占主导地位的公共话语。最终导致这场屠杀的冲突是冷战的产物，尤其是持续到20世纪80年代初的泰国国内冷战。后冷战时期的环境，使从共产主义与反共产主义立场理解10月6日的记忆显得过时。意识形态因素也极大地促成了人们对10月6日的矛盾态度和沉默，例如泰国的历史意识形态、民族主义，以及对个人权利和法治的特殊理解等。佛教尤其是一个重要的观念来源，它既促进、塑造，也限制人们理解这场暴行及其意义和应对方式的可能性。

[P005]

英文原文

Silence, this book argues, is not forgetting. Instead, it is a symptom of the inability to remember or forget, the inability to articulate memories in a comprehensible and meaningful fashion, or to depart from the past completely. I call this condition between remembering and forgetting the “unforgetting.” This book is about the unforgetting of the October 6 massacre in Bangkok in 1976.

中文译文

本书认为，沉默并不是遗忘。相反，它是一种既无法记住也无法忘却、无法以可理解且有意义的方式表达记忆，或无法彻底告别过去的状态的表现。我把这种处于记住与遗忘之间的状态称为“无法遗忘”（unforgetting）。本书探讨的正是1976年曼谷10月6日屠杀的这种无法遗忘状态。

Memory

记忆

[P006]

英文原文

This book has been informed by and benefited from the political and cultural studies of memory in many ways that I elaborate in this chapter. First, different types of memory of past atrocity, as Lawrence Langer suggests, are helpful to identify, understand, and conceptualize the various memories of those involved in the October 6 massacre, including their social and political status, how they relate to one another, and their symptoms.2 Nevertheless, as Langer himself admits, those types are actually nuanced and fluid. One’s memory, individually and collectively, includes the traits of more than one type. Although I use the conceptual and methodological tools of others in dealing with the memories of the October 6 massacre, I am not interested in the neat or precise classification of those memories because the nuances and ambiguities can be helpful.

中文译文

本书在许多方面受到记忆的政治与文化研究的启发，并从中获益；我会在本章展开讨论。首先，正如劳伦斯·兰格（Lawrence Langer）所指出的，对过去暴行的不同类型的记忆，有助于辨认、理解并概念化参与10月6日屠杀的不同人群的记忆，包括他们的社会与政治地位、彼此之间的关系以及各自记忆的表现。　不过，正如兰格本人承认的，这些类型实际上存在细微差异，而且具有流动性。无论在个人还是集体层面，一个人的记忆往往具有不止一种类型的特征。虽然我借用其他学者的概念和方法工具来处理10月6日屠杀的记忆，但我并不打算对这些记忆进行整齐或精确的分类，因为其中的细微差别和模糊之处本身就可能富有启发性。

[P007]

英文原文

Among the first issues most cultural studies of memory try to establish is the distinction between history and memory, especially in the collective sense, because our interest is also in "how societies remember."3 The fundamental distinction most studies agree on is that memory suggests the personal—often emotional—recollection of the past, whereas history is instead typically—at least nominally—an evidentiary recounting. According to Susan Crane's account, one of the best expositions on this issue, they are different forms of historical consciousness, separated by "a confusing or hair-splitting fine line" between them, and do not necessarily contradict or oppose one another.4 Memory is based on or drawn from lived experience, whereas history is mostly the knowledge of the past constructed from evidence that the historian did not experience. As Maurice Halbwachs, one of the most prominent scholars of memory, suggests,

中文译文

多数记忆文化研究首先试图厘清的问题之一，是历史与记忆之间的区别，尤其是在集体层面上的区别，因为我们同样关心"社会如何记忆"。　多数研究认可的基本区别是：记忆意味着对过去的个人性回忆，常常带有情感；历史则通常——至少在名义上——是依据证据所作的叙述。苏珊·克兰（Susan Crane）对这一问题所作的阐述是最好的论述之一。按照她的解释，二者是历史意识的不同形式，其间隔着一条"令人困惑或细致得近乎吹毛求疵的界线"，彼此不一定矛盾或对立。　记忆以亲身经历为基础或从中产生；历史则主要是依据历史学家本人未曾亲历的证据而建构的关于过去的知识。正如最重要的记忆研究学者之一莫里斯·哈布瓦赫（Maurice Halbwachs）所说：

[P008]

英文原文

history starts only when tradition ends and the social memory is fading or breaking up. . . . the need to write a history of a period, a society, or even a person is only aroused when the subject is already too distant in the past to allow for the testimony of those who preserve some remembrance of it.5

中文译文

只有当传统终结，社会记忆逐渐消退或瓦解时，历史才开始。……只有当某一时期、某个社会乃至某个人已经成为足够遥远的过去，以至无法再听到那些仍保有对其某种记忆的人的证言时，书写其历史的需要才会出现。

[P009]

英文原文

Thus memory is admittedly subjective, whereas history is supposed to be objective even if objectivity is impossible. Memory belongs to someone who remembers because it is meaningful to the owner, whereas history's meanings are impersonal and do not belong to anyone in particular.6

中文译文

因此，记忆显然是主观的，而历史则被认为应当是客观的，即便客观性不可能完全实现。记忆属于记忆者，因为它对记忆的拥有者有意义；历史的意义则不具有人格属性，也不专属于任何特定个人。

[P010]

英文原文

These contrasting attributes are, however, not definitive. Most scholars agree that memory and history are overlapping rather than neatly delineated. For instance, I was a witness of the massacre, am aware of my own limited memory, and am a historian trying to write a history of the memories of the massacre from a critical distance and with scholarly methodology. Moreover, as this book shows, individual memory is usually also shaped by history and ideology rather than personal experience. In this sense, memory is not truly individualized, but instead, or also, shaped by others and the collective experiences as well. Memory never denies the point of view or perspective of the one who remembers. History, on the other hand, is also a construct from certain perspectives despite its claim to objectivity.

中文译文

不过，这些对立的特征并非绝对。大多数学者都同意，记忆与历史彼此交叠，而不是有着泾渭分明的边界。例如，我是这场屠杀的见证者，知道自己记忆的局限，同时也是一名试图以批判距离和学术方法书写屠杀记忆史的历史学家。此外，正如本书将要表明的，个人记忆通常也受到历史和意识形态的塑造，而非仅由个人经历决定。从这个意义上说，记忆并非真正完全个人化的；它也受到他人和集体经验的影响。记忆从不否认记忆者自身的观点或视角。另一方面，尽管历史声称客观，它同样是从某些特定视角建构起来的。

[P011]

英文原文

Often, one's memory is in fact the recollection of something one learns indirectly, especially in the case of memory of a public event. The word "memory" is also used when the account of a firsthand experience is transmitted in an intimate fashion as to family members, even a later generation, even though this generational memory is not free from lapses and changes, and often interpretations. Memories via public experience and generational memory are not quite history either because their origin is based on contemporary and personal experiences, not impersonal evidence. At this point, the line between memory and history is blurred.7 Sites of memory, as Pierre Nora suggests, can impart memory for generations, long after the lived experience has gone. Likewise, a commemoration, a ritual, or a representation of the dying memory are no longer the lived experience. These kinds of memory, distant from the lived experience, probably overlap with the realm of history.

中文译文

一个人的记忆往往实际上是在回想自己间接了解到的事情，尤其是在记忆某个公共事件时。“记忆”一词也用于指亲历者的叙述以亲密的方式传递给家庭成员、甚至下一代的情况，尽管这种代际记忆也难免出现遗漏、变化，而且常常包含解释。通过公共经验形成的记忆和代际记忆也不完全等于历史，因为它们的起源是当时的个人经验，而非非个人性的证据。到了这里，记忆与历史之间的界线便模糊了。正如皮埃尔·诺拉（Pierre Nora）所指出的，记忆之场可以在亲身经历消逝很久之后，仍然将记忆传递给一代又一代人。同样，纪念活动、仪式，或对正在消退的记忆的再现，也不再是亲身经历。这些远离亲身经验的记忆形式，很可能与历史的领域相互重叠。

[P012]

英文原文

Despite these distinctions, history and memory overlap and are undistinguishable in many respects. For an ambivalent memory, such as those of the October 6 massacre, the contrast between the two can be misleading. In this book, I use the words "memory" and "history" loosely, sometimes intentionally signaling the blurred line between them. This does not mean, however, that I do not recognize their differences in important respects, especially an individual's memory based on firsthand experience and empathy for such firsthand experience on the one hand, and a study and writing about the past with critical distance on the other. I am careful about the choice of words when the distinction is clear.

中文译文

尽管有上述区别，历史与记忆在许多方面相互重叠，难以区分。对于10月6日屠杀这样充满矛盾性的记忆而言，强调二者之间的对立可能产生误导。在本书中，我较为宽泛地使用“记忆”和“历史”这两个词，有时还特意借此表明二者之间的界线是模糊的。然而，这并不意味着我不承认它们在重要方面存在差异，特别是一方面基于第一手经验的个人记忆以及对这种经验的共情，另一方面则是以批判距离研究和书写过去。当二者的区别清楚时，我会谨慎选择用词。

[P013]

英文原文

Memory of any public phenomenon is always multiple: any event can be viewed from different layers or scales—local, national, transnational—that interact and inform, contest and complement one another, often with varying implications for the present.8 The memories of the October 6 massacre contend not only with oblivion but also with one another. Memory based on firsthand experience does not guarantee the reliability and accuracy of the account. A firsthand memory may be affected by ideology or the memory frame. It can change over time as well, just like second- or thirdhand accounts. Like primary and secondary sources for a historian, each must be handled with particular care, criticism, and skepticism.

中文译文

对任何公共现象的记忆始终都是多重的：人们可以从地方、国家、跨国等不同层次或尺度看待同一事件；这些层次彼此互动、相互影响、相互争论，也相互补充，并且常常对当下有不同的意义。

对10月6日屠杀的各种记忆不仅与遗忘抗争，也彼此竞争。基于亲身经历的记忆，并不能保证叙述可靠、准确。第一手记忆也可能受到意识形态或记忆框架的影响；它还会随时间变化，如同第二手或第三手叙述一样。就像历史学家处理一手和二手史料一样，对每一种记忆都必须格外谨慎，以批判和怀疑的态度加以审视。

Collective Memory

集体记忆

[P014]

英文原文

What is the relationship between individual and collective memory? Some might assume that individual memory is a discrete fragment of the collective memory. It is not clear, however, how they come together—by combination, assimilation, conglomeration, contestation, domination and subordination, or something else. Collective memory, in this view, is the rich totality of lived experiences, in contrast to a historical construction that would reduce, select, and discard some of those elements for the sake of meaningful coherent narrative. Such an assumption is simplistic and usually not the case.

中文译文

个人记忆与集体记忆之间是什么关系？有人可能认为，个人记忆是集体记忆中一个个相互分离的片段。但它们究竟如何汇聚在一起——通过组合、同化、聚合、争论、支配与从属，还是其他方式——并不清楚。按照这一看法，集体记忆是亲身经历的丰富总体；相比之下，历史建构为了形成有意义且连贯的叙述，会缩减、选择或舍弃其中某些要素。这种假设过于简单，通常也不符合实际。

[P015]

英文原文

Collective memory is the shared experiences of a group of people (neighbors, a school class, a community, a nation). Only those experiences that are, Maurice Halbwachs suggests, “of concern to [a great number] of members” will be remembered; the ones that are not will be dropped.9 However, the notion of sharing something or of having a common experience are

inexact. A collective memory is often a broad stroke of narrative that leaves aside the differences and multiple perspectives within it. Because of this, not despite it, collective memory has the capacity to accommodate the varying individual memories that may fit despite their differences. The most important point here is that the relationship between the individual and collective memory is not that of the part to the whole. Instead, in selecting certain elements and making them meaningful while dropping others, collective memory provides a structure or a frame for the individual ones, recognizing some as more meaningful and some less so, and even not recognizing some. As Susan Crane succinctly puts it, “individual memory can only be recalled in the social framework within which it is constructed.”10 Or, in Elizabeth Jelin’s words, “individual memory is, thus, always socially framed. . . . The social is always present even in the most ‘individual’ moments. . . . Anything that does not find a place or a meaning in that framework is material that can be lost and forgotten.”11

中文译文

集体记忆是一个群体（邻居、同班同学、社区或民族）共同拥有的经验。正如莫里斯·哈布瓦赫所说，只有那些“为［相当数量的］成员所关心”的经历才会被记住；不受关注的经历则会被舍弃。然而，“分享某种事物”或“具有共同经验”的说法并不精确。集体记忆往往是一个以粗线条勾勒出的叙述，忽略其内部的差异和多种视角。恰恰因为如此，而不是尽管如此，集体记忆才有能力容纳那些虽然互不相同、却仍能纳入共同框架的个人记忆。这里最重要的一点是，个人记忆与集体记忆的关系并非部分与整体的关系。相反，集体记忆通过选择某些要素、赋予它们意义并舍弃其他要素，为个人记忆提供一种结构或框架，承认其中某些记忆更有意义，另一些意义较小，甚至完全不承认某些记忆。苏珊·克兰简洁地指出：“个人记忆只有在其被建构的社会框架中才能得到回忆。”　　或者用伊丽莎白·耶林（Elizabeth Jelin）的话说：“因此，个人记忆始终受到社会框架的塑造。……即使在最‘个人’的时刻，社会因素也始终存在。……任何无法在这一框架中找到位置或意义的事物，都可能成为丧失和遗忘的材料。”

[P016]

英文原文

Steve Stern explains the relation between individual memory and its frames in his own terms, that is, a “loose memory” is not intelligible until it fits the larger frame of the “emblematic” memory shared by the collectivity or community. For the memories of an authoritarian past, he suggests four types of emblematic memory that help makes sense of the individual ones: salvation memory, typically for a perpetrator who believes that he saved the country as required by the necessity of the situation at the time; unresolved rupture or the unhealed wound, for the victim whose memory remains unsettled and who has not yet come to terms with the past; resolved but painful memory, for the victim who lives an in-between life, with hurt and hope, stigma and strength, with or without closure, who is willing to move on even though the pain has not gone; and closed box memory, for anyone who considers the past as divisive, troubling, dangerous, and thus better put away and forgotten because it could destroy the peace and normalcy of family, society, or the nation.12

中文译文

史蒂夫·斯特恩（Steve Stern）用自己的术语解释了个人记忆与其框架之间的关系：一种“游离的记忆”（loose memory），只有被纳入集体或共同体共享的“象征性记忆”（emblematic memory）的更大框架后，才会变得可以理解。对于威权统治的过去，他提出四种有助于理解个人记忆的象征性记忆：一是“救赎记忆”，通常属于加害者，他们相信自己在当时情势的要求下拯救了国家；二是“尚未弥合的断裂”或“未愈合的伤口”，属于那些记忆仍然无法安定、尚未与过去和解的受害者；三是“虽已解决却仍痛苦的记忆”，属于生活在中间状态的受害者，他们同时怀有伤痛与希望、污名与力量，不论事情是否有了了结，都愿意在痛苦尚未消失时继续生活；四是“封闭盒子记忆”，属于认为过去会造成分裂、带来困扰和危险的人，因此主张最好将其封存并忘记，因为它可能破坏家庭、社会或国家的和平与正常生活。

[P017]

英文原文

Collective memory is a social phenomenon. An articulation of memory is first and foremost facilitated by language. Halbwachs reminds us of this fundamental truth, “there are no recollections to which words cannot be made to correspond. We speak of our recollections before calling them to mind. It is language, and the whole system of social conventions attached to it, that allows us at every moment to reconstruct our past.”13 Language is a social convention—socially formulated, socially reproduced, and socially transformed. Language, in its connotative sense, includes the vernacular discourses and texts shaped by a particular history and culture of a society. In this book, I explain how a number of particular discourses and ideologies that are pervasive in Thai society provide the “language” that makes some individual and collective memories comprehensible and others not.

中文译文

集体记忆是一种社会现象。记忆的表达首先需要语言。哈布瓦赫提醒我们这一基本事实：“不存在无法用言语对应的回忆。我们在将回忆唤入脑海之前，就已经谈论过它们。正是语言以及与之相连的整套社会惯例，使我们每时每刻都能够重建自己的过去。”　　语言是一种社会惯例，由社会形成、在社会中再生产，也随着社会而改变。从其隐含意义来看，语言也包括由特定社会的历史和文化所塑造的日常话语与文本。在本书中，我会解释泰国社会普遍存在的若干特定话语和意识形态如何提供一种“语言”，让某些个人和集体记忆变得可以理解，却使另一些无法得到理解。

[P018]

英文原文

First, Thailand has a long history of authoritarianism over the past hundred years, from the absolute monarchy before 1932 to several periods of military rules since then to the present day. National security has always been a higher priority for the state than anything else. The state's power often overrides those of individuals and the freedom of assembly and expression. These are the political conditions that have effectively shaped the language in which memories are understood.

中文译文

首先，在过去一百多年里，泰国有着漫长的威权统治历史：从1932年以前的君主专制，到此后直至今日的多次军事统治。国家安全始终是国家高于一切的优先事项。国家权力往往压倒个人的权力，以及集会和表达的自由。这些政治条件有效地塑造了人们用以理解记忆的语言。

[P019]

英文原文

Second, nationalism and a royalist historical ideology are pervasive and strong in Thailand. Historical ideology is significant to the framing of memory of the massacre given the lack of any concept of state crime in Thai historical ideology. The official history of Thailand that its citizens have been indoctrinated in for generations is a saga of the unity under benevolent monarchs against foreign threats. A massacre by the state, especially one of extreme brutality, does not fit neatly with the royal-national narrative. Thus it is more difficult for the memories of the massacre to find an appropriate narrative frame. Third, Buddhism is another important resource for "language" or concepts relevant to dealing with a traumatic past, namely, the notions of history, truth, reconciliation, forgiveness, and justice. These ideologies and cultural determinants deeply affect how individuals respond to atrocity, and how to remember—or not remember—the controversial and painful past.

中文译文

其次，民族主义和保皇主义的历史意识形态在泰国根深蒂固且影响强大。鉴于泰国历史意识形态中缺乏"国家犯罪"的概念，历史意识形态对于屠杀记忆的框定尤其重要。数代泰国公民所接受的官方历史教育，讲述的是在仁慈君主领导下团结一致、抵御外部威胁的传奇。国家实施的屠杀，尤其是一场极端残暴的屠杀，很难被顺畅纳入这种王室—民族叙事。因此，屠杀记忆更难找到恰当的叙述框架。第三，佛教是另一种重要的"语言"或概念资源，可用于面对创伤性的过去，涉及历史、真相、和解、宽恕与正义等观念。这些意识形态与文化决定因素深刻影响个人如何回应暴行，以及如何记住——或不记住——充满争议和痛苦的过去。

[P020]

英文原文

Finally, memory of an event, even an incomplete one, takes the form of a narrative. Like historical knowledge, the construction of a narrative form is far from an unmediated articulation. Because we usually do not realize that memory requires a narrative form, this book directs attention to the factors that affect the formation of a narrative of the massacre, such as the precedent and available modality of the expressible narrative to which a memory must be shaped lest it be rendered incomprehensible.

中文译文

最后，对某一事件的记忆，即使并不完整，也会以叙述的形式出现。与历史知识一样，建构一种叙述形式远非未经中介的直接表达。由于我们通常没有意识到记忆需要一种叙述形式，本书特别关注影响屠杀叙述形成的各种因素，例如先前已有的、可被表达的叙述范式；记忆必须按照这种范式被组织起来，否则就可能无法让人理解。

Memory Changes and Forgetting

记忆的变化与遗忘

[P021]

英文原文

This book is about the changes of memories. We often talk about how memory fades, as if time itself is an eraser of memory. In fact, time itself does not cause forgetting. We know and remember many historic events but often forget what we had for breakfast just two days ago. Everyone can remember the biographical milestones of childhood but tends to forget more recent days and months that pass by without remarkable events. A society remembers events that mark its history, sometimes even the ones historians have proven did not take place. Yet it lets the memory of other events fade into oblivion even though some individuals still remember them. “Time” is in fact an encompassing term for all actual factors and conditions that affect and change memory or induce amnesia.

中文译文

本书探讨记忆如何变化。我们经常谈到记忆如何随时间淡去，仿佛时间本身就是擦除记忆的橡皮。事实上，时间本身并不会造成遗忘。我们知道并记得许多历史事件，却常常忘记仅仅两天前早餐吃了什么。每个人都能记得童年生活中的重要节点，却往往忘记近几天、几个月里平淡度过的日子。一个社会会记得标志其历史的事件，有时甚至包括历史学家已证明并未发生的事件。然而，它也会让其他事件的记忆逐渐消逝，即使仍有一些人记得这些事件。实际上，“时间”是一个涵盖性术语，指影响和改变记忆或造成遗忘的所有实际因素与条件。

[P022]

英文原文

As a social phenomenon, the individual and collective memory can be affected and changed by many factors: be it a rumor or hearsay, a popular film or book, a historical study, an ideology, or a particular social and political environment. For a political incident, the obvious factors that

usually come to mind are power (political partisanship, authority, threat and intimidation, law suits, censorship, and so on) and benefits (potential gain or loss, job security, cost, effects on family and property, and intangible ones such as reputation and fame). In this book I deal with these obvious factors that affect the memory of the October 6 massacre. I pay attention, however, to the less obvious ones as well.

中文译文

作为社会现象，个人记忆和集体记忆都可能受到诸多因素的影响而发生改变：谣言或传闻、流行电影或书籍、历史研究、某种意识形态，或特定的社会政治环境。对于政治事件，人们通常首先想到的明显因素是权力（政治党派立场、权威、威胁和恐吓、诉讼、审查等等）以及利益（可能的得失、工作保障、成本、对家庭与财产的影响，以及名誉和声望等无形利益）。本书会处理这些影响10月6日屠杀记忆的明显因素，但也会关注那些不那么明显的因素。

[P023]

英文原文

We usually think memory changes because of a newfound fact or truth. This is sometimes true. A change in framing or the rearticulation of a collective memory affects individual memories and the memoryscape even more.14 Studies on this matter are numerous. For example, the changing relations between the United States and Japan, adversaries in the Pacific War who turned into close allies after the war, altered how Japan's role in the war was remembered. The contesting frames of Japan's role as aggressor or victim render the collective memories of the war divergent and thus ambiguous. Economic miracle and material prosperity in the immediate decades after the war shaped the war's memory in Japanese society.15 Carol Gluck conceptualizes it succinctly: "every country had its own 'chronopolitics' of memory, in which changes in domestic and international politics over time created the conditions for changes in the memory-scape."16 In other words, memory changes under the political climate of subsequent times. The chronopolitics of memory also plays a role in the ups and downs of influences of those contesting ideologies and public discourses too. Throughout this book, we see the explicit and implicit impacts of chronopolitics on the memories of the massacre.

中文译文

我们通常认为，记忆之所以变化，是因为出现了新发现的事实或真相。有时确实如此。但框架的变化，或集体记忆被重新表述，对个人记忆以及整个记忆景观（memoryscape）的影响甚至更大。

关于这一问题的研究很多。例如，美国与日本在太平洋战争中互为敌人，战后却成为亲密盟友；两国关系的变化改变了人们记忆日本在战争中所扮演角色的方式。把日本视为侵略者或受害者的竞争性框架，使集体战争记忆出现分歧，因而变得模糊。战后最初几十年的经济奇迹与物质繁荣，也塑造了日本社会的战争记忆。 卡罗尔·格鲁克（Carol Gluck）将其简明地概括为："每个国家都有自己的记忆'时间政治'，随着国内与国际政治随时间发生变化，记忆景观发生改变的条件也随之形成。" 换言之，记忆会在后续时期的政治气候中发生变化。记忆的时间政治还会影响那些相互竞争的意识形态与公共话语的影响力此消彼长。贯穿本书，我们将看到时间政治对屠杀记忆产生的显性与隐性影响。

[P024]

英文原文

The October 6, 1976, massacre was a culmination of the ideological conflict of the Cold War in Thailand. How it was initially understood and remembered in the wake of the massacre was shaped by Cold War tensions at the time. Its consequences, however, as explained in this book, led to drastic changes to the state as well as the Communist Party of Thailand (CPT), and resulted in the beginning of silence from around 1978. In Thailand, the end of the domestic Cold War came in the mid-1980s, a little earlier than the global one. The political climate changed dramatically after that. Ideological antagonisms became less of a factor due to the collapse not only of the Soviet Union but also of socialism as a counter-ideology to capitalism. These changes had an enormous impact on how individuals and the society remember the atrocity. In the new era, in which human rights and democracy became common in public discourse, it was difficult for many to understand the intense antagonism between communism and anticommunism and why it had been pursued to such a deadly extent. In the changed atmosphere, what had seemed reasonable became ridiculous, pride turned to foolishness, courage to nonsense, sacrifice to empty loss, and vengeance to guilt, self-doubt, and moral dilemma. Thus almost two decades of ambivalence and silence followed. During that period, the memories of both the victims and the perpetrators of October 6 shifted tremendously. The voiced became silenced and vice versa.

1976年10月6日的屠杀是泰国冷战意识形态冲突的高潮。屠杀发生后，人们起初如何理解和记住它，是由当时的冷战紧张局势塑造的。然而，正如本书将要解释的，这一事件的后果使泰国国家与泰国共产党（Communist Party of Thailand，CPT）都发生剧变，并导致大约从1978年开始出现沉默。在泰国，国内冷战于20世纪80年代中期结束，比全球冷战稍早。此后政治氛围发生巨大变化。不仅苏联解体，作为资本主义对立意识形态的社会主义也走向衰落，意识形态对抗因此不再像过去那样重要。这些变化极大地影响了个人与社会记忆这场暴行的方式。在人权和民主成为公共话语常见词汇的新时代，许多人很难理解共产主义与反共产主义之间何以存在如此激烈的敌意，以及为何这种对抗会发展到如此致命的程度。在变化了的氛围中，过去看来合理的事情变得荒谬；骄傲变成愚蠢，勇气变成无谓的行为，牺牲变成空洞的损失，复仇则变成内疚、自我怀疑和道德困境。此后便出现了将近二十年的矛盾态度和沉默。在此期间，10月6日受害者和加害者的记忆都发生了巨大转变。曾经说出的变得沉默，反之亦然。

英文原文

However, the political legacies of the Cold War propelled Thailand into new conditions of hyper-royalism, thus perpetuating, perhaps intensifying, fear for oneself and concern for the country. Despite the partial breakthrough in the silence in 1996, thanks to the movement that year to commemorate the tragedy, public knowledge and discourse about October 6 has been restricted to a limited extent since then. Over the past twenty years, given all these factors and more, memory has changed. So often even a little slippage of some facts in the narrative can change the meanings and consequences of such memories. The passage of more than forty years is not long enough to declare all the memories dead, either the individual or the collective ones, or to make the October 6 massacre an event from the remote past, to make it history. But

it is long enough for the memories of lived experiences to decline, shift, and alter through chronopolitics of memory and other conditions. It is long enough for the millennial generation to have acquired their secondhand memories from their elders and from living under the consequences and legacies of the massacre.

然而，冷战的政治遗产又将泰国推入一种极端保皇主义的新环境，从而使人们对自身的恐惧和对国家的担忧持续存在，甚至可能进一步加剧。1996年纪念这场悲剧的运动使沉默局部被打破，但此后有关10月6日的公共知识和话语仍受到相当程度的限制。过去二十年里，在上述及更多因素的作用下，记忆发生了变化。叙述中即使只是一些事实发生细微偏移，也常常会改变这些记忆的意义与后果。四十多年的时间并不够长，尚不能宣告所有个人与集体记忆都已消亡，也不足以把10月6日屠杀变成遥远过去的事件、变成历史。但这个时间跨度已经足以使亲身经验的记忆在记忆时间政治及其他条件的影响下衰退、转移和改变；也足以让千禧世代从长辈那里，以及从生活在屠杀的后果与遗产之中，获得第二手记忆。

英文原文

The younger ones live in the new conditions of the twenty-first century. Their memories come with certain generational perspectives that may or may not correspond to those of the previous generation. Memory shifts and slides are common. They are usually treated with scorn as the failure to remember, as symptoms of forgetting, as the decline and loss of authentic memory, or as falsehood. What we often do not realize is that generational memory is a form of memory production. For the memories of October 6, different generations interact and exchange their memories in the public sphere via public discourse that affects the memories of individuals across generations. This book is not interested in what is correct or false, authentic or otherwise, so much as how memories alter, how the shift occurs, and the meanings and implications of those changes.

年轻一代生活在21世纪的新环境里。他们的记忆带有某些代际视角，这些视角可能与上一代一致，也可能不一致。记忆的转移和滑动很常见。人们往往轻蔑地把它们看成记不住过去的失败、遗忘的表现、真实记忆的衰退与丧失，或者虚假记忆。我们经常没有意识到，代际记忆其实是一种记忆生产形式。就10月6日的记忆而言，不同世代通过公共话语在公共领域中交流和交换各自的记忆，而这些话语又影响跨世代的个人记忆。本书并不那么在意什么是正确或错误、真实或不真实，而更关心记忆如何改变、这种转变如何发生，以及这些变化的意义与影响。

英文原文

In many studies of memory, the opposite of memory is forgetting. Jelin suggests three types of forgetting: definitive forgetting, an attempt to erase recollections of facts and processes of the past; evasive forgetting, an attempt not to recall the upsetting memories after an atrocity; and necessary forgetting, the feeling of unburdening oneself from the weight of the past and moving on to focus on the future.17 People may also willingly forget, or not care to remember,

for various other reasons as well.18 In the case of the October 6 massacre, efforts were made to definitively forget, though they were hardly successful even decades later. Those efforts were enabled in part by the chronopolitics of memory but to a greater degree by the discourse of national reconciliation, forgiveness, and national interest. This book discusses those conditions that try to foster forgetting. Evasive forgetting has been common among the victims but is also common among members of the public who were aware of the possible repercussions of memory. The last kind of forgetting has been explicitly encouraged from time to time in the name of national interest and the future. To call for the necessary forgetting in the case of the October 6 massacre is like citing Ernst Renan's maxim—"forgetting and . . . historical error is an essential factor in the creation of a nation"—in the wrong context, making it an excuse for the crime.19

在许多记忆研究中，记忆的对立面是遗忘。耶林提出三种遗忘类型：彻底遗忘，即试图抹除对过去事实和过程的回忆；回避性遗忘，即在暴行之后试图不再回想令人痛苦的记忆；必要的遗忘，即感到自己摆脱了过去的重负，可以继续前行、把注意力放在未来。　　人们也可能出于各种其他原因而自愿遗忘，或者根本不在意是否记得。　　就10月6日屠杀而言，确实有人努力实现彻底遗忘，尽管数十年后这些努力仍难言成功。这些努力部分受到记忆时间政治的推动，但在更大程度上是由民族和解、宽恕和国家利益的话语促成的。本书讨论了那些试图推动遗忘的条件。回避性遗忘在受害者中很常见，在知道记忆可能引发何种后果的公众中也同样普遍。最后一种遗忘则不时以国家利益和未来的名义受到明确鼓励。在10月6日屠杀的语境中呼吁"必要的遗忘"，就像在错误的语境下引用欧内斯特·勒南（Ernst Renan）的格言——"遗忘以及……历史错误，是一个民族形成的重要因素"——从而使它成为为罪行开脱的借口。

英文原文

However, the most serious problem with the memory-forgetting dichotomy is not that it is wrong, but that it is, as Stern puts it, "insufficient—profoundly incomplete and in some ways misleading."20 This book argues that it is misleading on two counts. First, memory does not necessarily fade into forgetting. It may slide into another version of memory of the same event. Second, and more important, between the binary opposition of memory and forgetting is at least another condition of memory. Stern calls it "memory impasses." I call it the "unforgetting."

不过，记忆与遗忘二元对立最严重的问题不在于它是错误的，而在于正如斯特恩所说，它"并不充分——极其不完整，而且在某些方面具有误导性"。　　本书认为，它在两个方面具有误导性。第一，记忆不一定会逐渐消退为遗忘，也可能滑向同一事件记忆的另一个版本。第二，也是更重要的一点，在记忆与遗忘的二元对立之间，至少还存在另一种记忆状态。斯特恩称之为"记忆僵局"（memory impasses），我则称之为"无法遗忘"。

Silence and Unforgetting

[P029]

英文原文

Is silence always forgetting? Is such a binary between memory and forgetting misleading? Earlier studies of memory usually take silence as a mark of forgetting, either a sign of or a precursor to amnesia. This is not entirely wrong but it is not always right either. Silence is usually the result of the conscious effort to suppress memory, either by power or authority (being silenced) or voluntarily (being silent). Silence, however, is also a symptom of obedience to authority, especially in an authoritarian society such as Thailand. In such cases, being silenced and voluntary silence, being censored and self-censoring, are hardly distinguishable.

中文译文

沉默是否总是意味着遗忘？记忆与遗忘的这种二元划分是否具有误导性？早期记忆研究通常把沉默视为遗忘的标志，或者是失忆的征兆或前奏。这种看法并非全错，但也不总是正确。沉默通常来自有意识地压制记忆的努力，既可能是权力或权威造成的（被迫噤声），也可能是自愿的（保持沉默）。然而，沉默也可能是服从权威的表现，尤其是在泰国这样的威权社会中。在这种情形下，被迫噤声与自愿沉默、受到审查与自我审查之间几乎难以区分。

[P030]

英文原文

I argue, however, that between memory and forgetting is an active silence, which is not forgetting. In music, silence is the interval between two sounds. It is an integral and active component of the musical sound. The absence of sound in music is neither failure nor inaction; it is part of the production of sound, making sound by not creating it. In literary works, not only is silence the space between words, it is also often a device for literary effects, such as a pause in a conversation or stream of thought or a mute character. In films, silence is as prominent as dialogue. If memory is like music or a visual image, silence is the nonvocal or invisible part of memory, adjacent to memory, and vice versa. To put it another way, silence is defined by the sound, the conversation, the visual adjacent to it.

中文译文

不过，我认为，在记忆与遗忘之间存在一种积极的沉默，它并不等于遗忘。在音乐中，沉默是两个声音之间的间隔，是音乐声音不可分割而且具有主动作用的组成部分。音乐中没有声音并不意味着失败或无所作为；它是声音生产的一部分，通过不发出声音而形成声音。在文学作品中，沉默不仅是词语之间的空隙，也经常是产生文学效果的一种手段，例如对话或思绪中的停顿，或一个不说话的角色。在电影中，沉默与对白同样突出。如果记忆如同音乐或视觉图像，沉默便是记忆中不发声或不可见的部分，与记忆相邻；反过来也一样。换句话说，沉默是由它旁边的声音、对话或视觉形象界定的。

[P031]

英文原文

Scholars of memory and silence of the authoritarian past have argued convincingly that silence is not necessarily forgetting, not the absence of meaning.21 It is the memory that is

marginalized or unrecognized, suppressed, unvoiced, or unrepresented. Silence is the memory we fail to hear or see, located adjacent to the expressed and voiced one. It is the realm of the unforgettable or unvoiced but not forgotten memory. It is inarticulate memory. Or it could be the memory whose owner tries to avoid, bury, and not recognize, to forget but without success. As I explained earlier, I call it “unforgetting,” a term I use synonymously with “silence” on many occasions in this book. If dark matter makes up a significant part of the universe and if mute sounds help make music what it is, unforgetting must also make up the totality of the memoryscape. This realm may be enormous if we can train our eyes and ears to see and listen to it.

中文译文

研究威权过去的记忆与沉默的学者已经有力地论证，沉默不一定是遗忘，也不意味着意义的缺失。

它是被边缘化或不被承认、受到压制、没有声音或未被再现的记忆。沉默是那些我们无法听到或看到、位于已经表达和发声的记忆旁边的记忆。它属于不可遗忘、未被说出却没有忘却的记忆领域，是无法清晰表达的记忆。它也可能是记忆的拥有者试图回避、埋藏、不愿承认乃至想要忘记，却始终无法成功的记忆。正如前文所述，我称之为“无法遗忘”；在本书许多地方，我也把这一术语与“沉默”作为近义词使用。如果暗物质构成宇宙的重要部分，如果无声的间隔有助于使音乐成为音乐，那么无法遗忘也必然构成整个记忆景观的一部分。如果我们能够训练自己的眼睛和耳朵去看见、去聆听，这个领域可能异常庞大。

英文原文

Generally speaking, memories are contested but not all memories are equal. Some are dominant, more powerful, more acceptable or tolerable; others are harder to believe or accept, or even threatening to the well-being of an individual or the status quo of a society. Memory of a political event can be controversial and involve high stakes if it can jeopardize the position or livelihood of one person or another. In these situations, some memories are promoted, publicized, or allowed to circulate, yet some are condemned to obscurity or marginalized into the adjacent realm of silence. The unpleasant, painful, and dangerous ones are avoided. Such memories often are not articulated, are not able to be articulated, and thus have no voice, no narrative, no story, and no history (yet). This is exactly what Michel- Rolph Trouillot calls, in spatial metaphor, the edge of the voiced, a story that is hard to comprehend and is often explained away or forced to fit existing narratives.22

斯特恩在研究智利对皮诺切特政权的记忆时，也注意到了类似的无法遗忘状态。他称之为"记忆僵局"，并作如下描述：

英文原文

The idea of . . . forgetting . . . is useful to a point, but it simplifies the Chilean path of memory struggles. . . . The problem turned out to be more subtle and . . . more horrifying. . . . [like the] famous phrase by Mario Benedetti, "oblivion is filled with memory" . . . Memory of horror and rupture also proved so unforgettable or "obstinate" . . . What emerged instead was impasse. [The memory impasse] remained too strong for Chile to take logical "next steps" along the road of truth and justice. The result was not so much a culture of forgetting, as a culture that oscillated—as if caught in moral schizophrenia—between prudence and convulsion. [T]his was a "moving impasse."23

"遗忘"这一概念……在一定程度上有用，但它简化了智利记忆抗争的道路。……问题后来显得更加微妙，而且……更加可怕。……［正如］马里奥·贝内德蒂（Mario Benedetti）的名言："遗忘中充满记忆。"……恐怖与断裂的记忆同样表现得如此无法遗忘、如此"顽固"。……出现的却是一种僵局。［记忆僵局］的力量仍然太强，使智利无法沿着真相与正义之路迈出合乎逻辑的"下一步"。其结果，与其说是一种遗忘文化，不如说是一种在谨慎与激烈震荡之间摇摆的文化——仿佛陷入道德上的精神分裂。［这］是一种"移动中的僵局"。

Whereas "memory impasse" implies a passive state of memory, I call this condition the "unforgetting" because it is alive and could be actively resisting oblivion.

英文原文

Silence is not a void; it is a countersound. "The look of silence," as suggested by Joshua Oppenheimer in his 2014 film of the same title, is full of memories that try to be articulated, heard, and seen.24 This book is about the unforgetting or the memory impasse of an atrocity in Thailand, contemporary to Augusto Pinochet's Chile but much less known to the world. The October 6 massacre, too, proved "so unforgettable," but has been caught between memory and

forgetting because the country cannot take the next steps along the road to truth and justice. The book shows the causes and conditions of the unforgetting, how they survived and changed over four decades, and the effects and implications for the country even today whether people are aware of them or not. Silence is not a passive realm of memory but one of counter or resistant memory. If memory can find its site in places, monuments, and commemorations, the unforgetting too, as the book shows, registers in monuments and commemorations that reproduce the unforgetting.

中文译文

沉默并不是空无；它是一种反向的声音。正如约书亚·奥本海默（Joshua Oppenheimer）2014年的同名电影《沉默之像》（The Look of Silence）所提示的，“沉默之像”充满了试图被表达、被听见和被看见的记忆。　　本书讨论的是泰国一场暴行的无法遗忘或记忆僵局。它与奥古斯托·皮诺切特统治时期的智利发生在同一个时代，却远不为世界所知。10月6日屠杀也证明了自己“如此无法遗忘”，但由于这个国家无法沿着通往真相与正义的道路继续前行，它始终被困在记忆与遗忘之间。本书展示无法遗忘的原因和条件、这些原因和条件如何在四十年间存续和变化，以及无论人们是否意识到，它们直到今天仍然对这个国家产生的作用与影响。沉默不是被动的记忆领域，而是反向记忆或抵抗性记忆的领域。如果记忆可以在场所、纪念碑和纪念活动中找到自己的位置，那么正如本书所示，无法遗忘也会记录在那些不断再生产无法遗忘状态的纪念碑与纪念活动之中。

Another common assumption is that silence is not good, is unpleasant, is a condition of something bad, something gone wrong.

中文译文

另一种常见的假设是，沉默并不好，是不愉快的，是某种坏事或差错的状态。

[P038]

英文原文

This is not necessarily so. Such simplistic assumptions usually imply that forgetting and silence are a wrongdoing that benefits powerful people. This is not necessarily so either. This book visits some examples of voluntary silence that came about for good reasons. For some, silence was a way to keep memory and hope alive. For many, Buddhism also contributes to virtuous silence. It provides a comprehensible explanation for incomprehensible event and offers guidance for how to overcome the painful past in order to live on in the present and move on to the future. Silence is also a way to make a loud noise of discontent, as in the case of a well-known victim, the former rector of Thammasat University. “Put simply, being silent does not mean being silenced.”25 The former is a choice of action; the latter is the denial of freedom. The former can be a form of resistance, even a way of communication, the latter a form of repression and the death of expression.

中文译文

事实未必如此。这类过于简单的假设通常还意味着，遗忘和沉默是一种让有权势者受益的错误行为。但这同样未必成立。本书考察了若干出于正当理由而自愿保持沉默的例子。对一些人而言，沉默是保持记忆与希望不灭的一种方式。对许多人来说，佛教也促成一种有德性的沉默。它为难以理解的事件提供可以理解的解释，并为如何克服痛苦的过去、继续生活于当下、走向未来提供指引。沉默还可以成为表达不满的强烈声音，例如一位著名受害者、法政大学前校长的情况。“简单地说，保持沉默并不意味着被迫沉默。”　　前者是一种行动选择，后者则是否定自由。前者可能是一种抵抗，甚至是一种沟通方式；后者则是一种压制，意味着表达的死亡。

[P039]

英文原文

Ambivalence and silence are not always indicative of absence, erasure, or degeneration either. They can be productive as well. The unforgetting of the October 6 massacre has generated various political and social phenomena, even a few concrete memorials and monuments that bear the marks of traumatic ambivalence. It has produced a narrative of an event that never occurred, a collective false memory of the massacre, yet the one that Thai society can accommodate and has lived by. Memories of the massacre can even produce political identities of individuals and civic groups based on nothing but the shared memory of the radical past, preserving both the positive— idealism, inspirations, shared experience, connections, a network of people, and so on—and the not-so-positive baggage of such memories into the new millennium.

中文译文

矛盾态度和沉默也不总意味着缺失、抹除或衰退。它们同样可能具有生产性。对10月6日屠杀的无法遗忘，已经产生了各种政治和社会现象，甚至催生出若干具体的纪念设施与纪念碑，其中都带有创伤性矛盾态度的印记。它还产生了关于一件从未发生的事件的叙述，即对这场屠杀的一种集体虚假记忆；但这种记忆是泰国社会所能容纳、并据以生活的。屠杀记忆甚至可以仅仅以对激进主义过去的共同记忆为基础，产生个人和公民团体的政治身份，并将这种记忆中的积极遗产——理想主义、激励、共同经验、联系、人际网络等等——以及那些不那么积极的负担，一并保留到新千年。

An Overview of the Book

[P040]

英文原文

Given this understanding of memory and silence, the cultural logic of memory can be summarized as follows. First, memory responds to, and serves, the present, although it claims to re-collect the lived experience of the past. Second, memory is always a perspective, a view of the past from a selected angle. Whose perspective is it and how is it adopted or selected? For every memory is always a competing or contested memory. Third, therefore, memory (something kept alive) always indicates forgetting (something lost). It is productive (something created) and circulative (something exchanged). Fourth, apart from experience, the material of

memory, the meaning and intelligibility of memory, are affected and shaped by ideology, the narrative of relevant history, available frames, prior text, or narrative precedents. This book observes these understandings in examining the silence of the October 6 massacre.

中文译文

基于对记忆与沉默的上述理解，可以把记忆的文化逻辑概括如下。第一，虽然记忆声称要重新收集过去的亲身经历，但它回应并服务于当下。第二，记忆总是一种视角，是从某个选定角度看待过去。那么，这是谁的视角？又是如何采纳或选择这一视角的？因为每一种记忆始终都面临其他记忆的竞争或质疑。第三，因此，记忆（某种得以存活的事物）总是同时指向遗忘（某种已经失去的事物）。记忆具有生产性（创造了某种东西），也具有流通性（交换了某种东西）。第四，除了经验本身，记忆的材料、意义与可理解性，还会受到意识形态、相关历史叙述、现成框架、既有文本或先前叙事范例的影响和塑造。本书将以这些认识为基础，考察围绕10月6日屠杀的沉默。

Chapters 2 to 6 are chronological, marking the chronopolitics of memories and silence of the massacre, from the beginning of memories in 1976 and the beginning of silence in 1978, to the two decades of silence and shifts of memories up to the breakthrough of silence in 1996. Chapters 7 to 9 discuss different kinds of silence of the victims and the perpetrators and explain the conditions of memory slides over generations, especially after 1996. Chapter 10 returns to the chronopolitics of memory from the late 1990s to the present day.

英文原文

Chapter 2, “The Massacre and Unanswered Questions,” is the only one in the book that deals with what happened in the morning of October 6, including the larger historical context, the pretext, and the immediate situation before the killing. Because many facts about the incident remained unknown, the chapter raises thirteen major questions that still need answers, from the roles of the monarchy and the Buddhist sangha, the United States, the Communist Party of Thailand, to the identities of the perpetrators, the reasons for the brutality and the desecrations of the corpses, and other critical mysteries. Not only do these facts and mysteries serve as the setting for the remainder of the book; they have also contributed in many ways to the unforgetting and the changing memories afterward.

第二章《屠杀与悬而未决的问题》是全书唯一着重讨论10月6日早晨究竟发生了什么的一章，包括更广泛的历史背景、事件的借口，以及杀戮之前的即时局势。由于事件的许多事实仍然不明，这一章提出十三个尚待回答的重要问题：从王室、佛教僧团、美国和泰国共产党的角色，到加害者

的身份、暴行与侮辱尸体的原因，以及其他关键谜团。这些事实与疑团不仅构成全书其余部分的背景，也以许多方式促成了此后的无法遗忘与记忆变化。

[P043]

英文原文

Chapter 3, “The Beginning of Memory,” argues that the official narrative put forward by the state immediately in the wake of the massacre was the beginning of collective memories of the massacre that endured for several decades. On the other hand, the immediate reactive narrative by the radicals and the Communist Party became the frame for a counternarrative. Instead of gradually taking shape out of diverse individual memories, as one might assume, the dominant discourses of the perpetrators and the victims were put forward immediately in the public sphere by protagonists on both sides. The collective memories influenced and shaped the individual memories, which made themselves meaningful by aligning with the collective ones.

第三章《记忆的开始》认为，国家在屠杀刚刚发生后立即提出的官方叙述，是此后延续数十年的屠杀集体记忆的开端。另一方面，激进派和共产党当时作出的即时回应性叙述，则成为一种反叙事的框架。与人们可能想象的不同，占主导地位的加害者话语与受害者话语，并不是从多样的个人记忆中逐步形成的，而是由双方的主要参与者立即在公共领域中提出。集体记忆影响并塑造个人记忆，而个人记忆通过与集体记忆保持一致来获得自身的意义。

[P044]

英文原文

Chapter 4, “The Trial and the Beginning of Silence,” explains the unfolding political situation during the two years after the massacre until the beginning of silence. The focus is on the October 6 trial in the context of the political changes that took place because of a major shift in the counterinsurgency strategy of the Thai state. The potential fallout from the trial that could hurt the state was turned into the cornerstone of a new strategy that called for reconciliation with the leftists, resulting in the 1978 amnesty bill that absolved all wrongdoing on October 6, 1976, and ended the trial. The reconciliation, which had strong public support, necessitated silence about the massacre.

第四章《审判与沉默的开始》解释屠杀之后两年里，直至沉默开始时的政治局势如何演变。重点是在泰国国家反叛乱战略发生重大转向所带来的政治变化背景下，考察10月6日审判。审判可能给国家带来的不利后果，被转化为新战略的基石；新战略主张与左翼人士和解，最终促成1978年的大赦法案，该法案免除了1976年10月6日发生的一切不当行为的责任，并结束了审判。这种获得公众强力支持的和解，要求人们对屠杀保持沉默。

[P045]

英文原文

Chapter 5, “Silence after 1978,” demonstrates the changing and fluctuations of the memories of the massacre between 1978 and 1996. Thanks to the greater degrees of democratization and

liberal politics, the perpetrators' heroic victory turned into a shameful episode in the eyes of the public. However, the radical movement did not benefit from this but instead collapsed in the early 1980s. The October 6 tragedy became an empty loss, a sacrifice for a lost cause. Justification and pride in their memories evaporated. Silence prevailed. Silence was common among other witnesses and observers of the 1976 massacre too. The traces of these changes surfaced in political controversies, in writings such as novels and memoirs, and in a stalled monument project.

第五章《1978年以后的沉默》展示1978年至1996年之间屠杀记忆的变化与起伏。随着民主化和自由主义政治的发展，在公众眼中，加害者所谓的英雄胜利转变成一段可耻的往事。然而，激进运动并未从中受益，反而在20世纪80年代初崩溃。10月6日的悲剧成为徒然的损失，成为为失败事业所作的牺牲。他们对自身记忆的正当化与自豪感消失殆尽。沉默占据了上风。在1976年屠杀的其他见证者与观察者中，沉默也十分普遍。这些变化的痕迹出现在政治争议中、小说和回忆录等文字作品中，以及一个停滞的纪念碑项目中。

英文原文

Chapter 6, "Commemoration 1996," explains conditions in the mid-1990s when former radicals collectively launched the first major commemoration of the massacre on its anniversary in 1996. The chapter describes why and how breaking through the silence surrounding the October 6 massacre was a historic, cathartic moment for many former radicals, individually and collectively. However, some memories were even further marginalized, and the perpetrators remained silent, so it was only a partial break in the silence. Limitations for the discourse about the massacre remained. The ambiguity in the public memory of the massacre also persisted. Silence— the unforgetting—also perpetuated and was illustrated in monuments of the October 6 massacre and related events.

第六章《1996年的纪念》解释了20世纪90年代中期的条件：前激进派在1996年屠杀纪念日共同组织了首次大型纪念活动。这一章描述为什么以及怎样打破围绕10月6日屠杀的沉默，对许多前激进派而言，无论在个人还是集体层面，都是一个具有历史意义、使情感得到宣泄的时刻。然而，一些记忆却受到进一步边缘化，加害者依然沉默，因此这次活动只是局部打破了沉默。有关屠杀的公共话语仍有限制，公众屠杀记忆的模糊性也继续存在。沉默——即无法遗忘——也持续存在，并在10月6日屠杀及相关事件的纪念碑中得到体现。

英文原文

Chapter 7, "Good Silence," tells the stories of those who voluntarily chose silence. Their reasons vary. A father chose not to end his memoir of the search for his son in order to keep his son alive in his memory. His hope lived on as long as his son's body was not found. Sadly, the truth broke down his hope and ended the false memory. For some pious Buddhists, silence is a way to overcome hatred and vengefulness. But what are the implications of these beliefs for

truth, remembering, and justice? A third case shows how a medical affliction that brought silence to a victim of the massacre became a thoughtful soliloquy that reminded people of the atrocity and its consequences. Are these good silences?

中文译文

第七章《好的沉默》讲述那些自愿选择沉默的人的故事，他们的理由各不相同。一位父亲为了让儿子在记忆中继续活着，选择不为寻找儿子的回忆录写下结尾。只要没有找到儿子的遗体，他的希望就依然存在。令人悲伤的是，真相粉碎了他的希望，也终结了那段错误的记忆。对于一些虔诚的佛教徒而言，沉默是克服仇恨与复仇心理的一种方式。但这些信念对真相、记忆与正义意味着什么？第三个案例展示，一位屠杀受害者因疾病而失声，这种沉默却成为富于思考的独白，提醒人们记住暴行及其后果。这些是好的沉默吗?

英文原文

Given the extended period of ambiguity and relative silence, despite the partial breakthrough, Chapter 8, “Sliding Memory,” explains how the memories of the massacre shifted over the generations to produce a different memory. The dominant ideology of Thai history and other relevant ideological elements (truth, justice, and so on) has tamed the subversiveness of the unforgetting of October 6. The hyper-royalist politico-cultural conditions also contributed to memory slides. Not only were the dangerous memories quarantined; these ideological effects also modified the narrative of the October 6 massacre to the extent that it generated a false memory of a massacre that never occurred. The new narrative that emerged serves all the dominant ideologies and discourses, including the royal-nationalist narrative that the Thai state celebrates.

尽管沉默曾被部分打破，但模糊不清和相对沉默的状态长期延续。第八章《滑动的记忆》解释屠杀记忆如何跨越世代发生转移，并产生不同的记忆。泰国历史中的主导意识形态以及其他相关的意识形态要素（关于真相、正义等等），驯化了10月6日无法遗忘状态所具有的颠覆性。极端保皇主义的政治文化环境也推动了记忆的滑动。不仅危险的记忆被隔离起来，这些意识形态效应还改造了10月6日屠杀的叙述，以致产生一场从未发生过的屠杀的虚假记忆。由此出现的新叙述服务于所有占主导地位的意识形态与话语，包括泰国国家所颂扬的王室民族主义叙事。

Chapter 9, “Silence of the Wolf,” traces the changing and unchanging memories of the right-wing perpetrators by the 2000s.26 In addition to using their testimonies to the police shortly after the incident, I have tracked them down and had face-to-face interviews with many former adversaries, including the notorious ones. It was not surprising that none of them showed remorse. Despite that, the encounters produced many surprises, including who the actual killers were. Above all, most have been unable to avoid the chronopolitics of memory after the Cold War either. Many felt betrayed by history, politics, and the public. Hence, stigma and silence. Yet, some rightwing royalists remained very proud of what they did in the past and

adamant that they would do it again if necessary.

第九章《狼的沉默》追踪右翼加害者到21世纪初发生变化与未发生变化的记忆。　　除了使用他们在事件发生不久后向警方提供的证词，我还找到许多当年的对手，包括一些臭名昭著的人物，并与他们面对面访谈。他们当中没有人表现出悔意，这并不令人意外。然而，这些会面仍带来许多意想不到的发现，包括谁才是真正的杀人者。尤其重要的是，他们大多数人也无法逃避后冷战时代的记忆时间政治。许多人感到自己遭到历史、政治和公众的背叛，于是出现了污名和沉默。然而，一些右翼保皇主义者对过去的所作所为仍然十分自豪，并坚称必要时还会再做一次。

The cathartic breakthrough in 1996 enabled the return to politics of the former 1970s radicals under the political identity of the Octobrists (khon duan tula). Chapter 10, “Praxis of Memory: The Octobrists,” explores the rise and fall of this identity in dialogue with a recent book on the subject. Although the memory of the massacre that forms the basis for the Octobrist identity came with many positive attributes, it also entailed the negatives and insurmountable limitations that made the Octobrists unable to operate successfully under post–Cold War political conditions. The former radicals live on, but the Octobrist identity is dead.

1996年那次令人得到情感宣泄的突破，使20世纪70年代的前激进派能够以“十月人”（Octobrists，泰语 khon duan tula）的政治身份重新参与政治。第十章《记忆的实践：十月人》通过与一本近期相关著作对话，探讨这一身份的兴衰。虽然构成“十月人”身份基础的屠杀记忆带有许多积极特质，却也包含消极遗产与难以克服的局限，导致“十月人”无法在后冷战的政治条件下有效行动。昔日的激进派仍然活着，但“十月人”的身份已经死亡。

英文原文

In lieu of a conclusion, the epilogue—“Haunting”—shows how the unforgetting of the October 6 massacre is like a phantom in every corner of Thai society today. Writing a story about different moments of silence is a history of the phantom, of the traces of memory that are still alive, wandering around in various forms because they have not yet found a visible form or an intelligible voice. The silence is elusive, phantasmagoric, and haunting. The realm of silence could be a transient moment between memory and amnesia, the birth and death of history, words, and oblivion. It is definitely not yet dead or forgotten, however. It can be fantastic. This book strives to capture such liminal moments of memory—the moments of unforgetting of the October 6 massacre.

作为结论的替代，尾声《萦绕》展示10月6日屠杀的无法遗忘如何像幽灵一样，出没于今日泰国社会的每个角落。书写不同时刻的沉默，就是书写幽灵的历史：那些记忆的痕迹仍然活着，以各种形式四处游荡，因为它们尚未找到可见的形态或可理解的声音。沉默难以捉摸，如幻影般变幻，

并且不断萦绕。沉默的领域可能是记忆与失忆、历史的诞生与死亡、言语与遗忘之间的短暂时刻。然而，它显然尚未死亡，也没有被遗忘。它也可能如梦似幻。本书试图捕捉这些记忆的临界时刻——10月6日屠杀无法遗忘的时刻。

Writing a Ghostly Silence

书写幽灵般的沉默

[P052]

英文原文

Moments of Silence deals particularly with the unforgetting and silence of past suffering that remains unsolved and without closure. It is a particular kind of memory and silence. In the words of Jelin, who has studied Argentina's Dirty Wars, writing about this kind of past is like "the representation of something that has been erased, silenced, or denied. . . . the presence of trauma is indicated by the coexistence of an impossibility of assigning meaning to past occurrences, [and] by the inability to incorporate it in a narrative. . . . [The] wounds imply great difficulties for constituting meaning and building its narrative."27 It is like a ghost, Trouillot says, because this past was in a state of liminality.28

中文译文

《沉默的时刻》特别关注那些尚未解决、也没有得到了结的过去苦难的无法遗忘与沉默。这是一种特殊的记忆与沉默。研究阿根廷“肮脏战争”的耶林曾指出，书写这种过去，就像是“再现某种已经被抹除、噤声或否认的事物。……创伤的存在，表现为既无法赋予过去的事件以意义，［又］无法将其纳入叙述。……［这些］伤口意味着在形成意义、建构叙述方面存在巨大困难”。

特鲁约说，这就像一个幽灵，因为这段过去处于一种临界状态。

英文原文

Writing about a ghostly silence also confronts the limits and problems that many scholars have addressed in the study of Holocaust memories. First, writing about a traumatic past is unavoidably inadequate. A historical explication cannot overcome the limitations in understanding and representing the enormity of an atrocity that cannot be represented in words.29 The second problem for a historical representation of a ghostly silence, as raised by Dominick LaCapra, is whether a history should, has to, or can be objective and fair to all protagonists in an atrocity. A historian should not and cannot avoid being implicated in the process of writing about it, yet he also has the scholarly responsibility to do so.30 Or as Valentine Daniel muses in his writing on the violence in Sri Lanka, if he writes in a straightforward way, the story would be full of naked violence; if he theorizes, it would "flatten reality"; if he does not write and does nothing, he violates his own ethics; and if he does not do his job well, he might offend the people he writes about and bring trouble to himself.

书写幽灵般的沉默，也会碰到许多研究大屠杀记忆的学者已讨论过的局限与问题。首先，对创伤性过去的书写不可避免地是不充分的。历史解释无法克服理解与再现暴行规模时的局限，因为那

种巨大程度根本无法用语言充分表现。　　多米尼克·拉卡普拉（Dominick LaCapra）提出的第二个问题，是当历史再现幽灵般的沉默时，它是否应该、是否必须，或者是否能够对暴行的所有参与者保持客观和公平。历史学家不应、也无法避免自己被卷入书写过程，但同时又承担着这样做的学术责任。　　又如瓦伦丁·丹尼尔（Valentine Daniel）在书写斯里兰卡暴力事件时所思考的那样：如果直截了当地写，故事便会充满赤裸裸的暴力；如果进行理论化，就会“压平现实”；如果不写、什么都不做，就违背自己的伦理；如果写得不好，则可能冒犯他书写的那些人，并给自己招来麻烦。

英文原文

I am aware of these concerns. If the memory and the unhealed wounds of a past atrocity are like a ghost, writing about it might have been easier because a horror story is a well-developed genre. But this is writing at the interstices of many realms, not only between memory, unforgetting and forgetting, but also between the act of writing and the unrepresentable enormity of the past. Despite that, ghostly memories need not be hidden in the abstraction of theoretical jargon because they are concretely identifiable at various moments in which memories remain stuck in ambivalence, unable to be articulated. The factors, reasons, and situations surrounding those moments that produce silence are concretely historical as well. We must try as best we can, cliché though that may be.

中文译文

我知道这些担忧。如果过去暴行的记忆和未愈合的伤口如同幽灵，那么书写它或许本可更容易些，因为恐怖故事早已是一种发展成熟的文类。但这里的书写处于多个领域的缝隙之中：不仅在记忆、无法遗忘与遗忘之间，也在书写行为与过去那种无法被再现的巨大程度之间。尽管如此，幽灵般的记忆不必隐藏在理论术语的抽象外壳之中，因为我们可以在记忆陷入矛盾、无法说出的许多具体时刻，辨认它们的存在。围绕这些产生沉默的时刻的因素、原因与情境，也都是具体的历史。即便这听起来像老生常谈，我们仍必须尽最大努力。

英文原文

I am in both a better and worse position to write about the 1976 massacre in Bangkok than others. No reader should expect impartiality from me because I lost friends in the carnage. In writing this book, I do not make any pretense to objectivity. I have made my involvement in that Wednesday morning clear. Despite that, I proudly accept the challenge of writing a good history as only a historian can. That LaCapra has raised his question to any historian of an atrocity suggests that the dilemma is not mine alone. It is a challenge to anyone with moral

decency who tries to write about a ghostly silence. I was fully aware and conscious of the enormity of the tragedy even before I began to write. If words are inadequate to represent it, it is not because I am not aware of that fact or because I have tried to trivialize the weight of the past. I understand the burden of writing about this ghostly past: it is not just another story to captivate a historian, it is my life. Part of my soul is in this book.

与其他人相比，我在书写1976年曼谷屠杀时，既处于更有利、又处于更不利的位置。没有读者应该期待我不偏不倚，因为我在杀戮中失去了朋友。写这本书时，我不假装自己具有客观性。我已经清楚交代自己在那个星期三早晨所扮演的角色。尽管如此，我仍自豪地接受挑战，努力像一名历史学家那样写出好的历史。拉卡普拉向每一位书写暴行的历史学家提出的问题，说明这种困境并不只是我一个人的。对任何有道德良知、试图书写幽灵般沉默的人来说，这都是一种挑战。我在开始写作之前，就已充分意识到这场悲剧的巨大分量。如果语言不足以再现它，并不是因为我不明白这一点，也不是因为我试图轻描淡写过去的重负。我理解书写这个幽灵般过去所承担的负担：它不是另一个令历史学家着迷的故事，而是我的生命。我灵魂的一部分就在这本书里。

英文原文

To me, writing and history are the best way to share the memory of the tragedy and my lost friends to the world. A rigorous scholarship demands my utmost effort as the offering to those in the heavens; if successful, it could be a lasting dedication on their behalf to the world of knowledge to fight ignorance and cruelty.

对我而言，书写与历史是把这场悲剧以及我失去的朋友的记忆分享给世界的最好方式。严谨的学术研究要求我付出最大的努力，以此作为献给天上亡友的祭礼；如果成功，它便可能成为代表他们献给知识世界的一份持久纪念，用以对抗无知与残酷。

英文原文

Turning the ghostly silence into words is a unique challenge for a historian and a survivor of the massacre. So many times I lost the words, and vice versa, because the unforgetting is much more, though sometimes less, than words. Nguyen Viet Thanh also remarks on writing about the memory of war that speaks to this book on the October 6 massacre.

对于一名历史学家和屠杀幸存者而言，把幽灵般的沉默化为语言是一种独特的挑战。许多时候，我找不到词语；反过来，词语也无法容纳我，因为无法遗忘有时远远超过语言所能表达的内容，有时又不及语言。阮越清（Nguyen Viet Thanh）在论述战争记忆的书写时也曾说过一番话，与本书讨论10月6日屠杀的主题相呼应。

[P059]

英文原文

When it comes to war, the basic dialectic of memory and amnesia is thus not only about remembering and forgetting certain events or people. . . . A just memory demands . . . a final step in the dialectics of ethical memory—not just the movement between an ethics of remembering one's own and remembering others, but also a shift toward an ethics of recognition, of seeing and remembering how inhuman inhabits the human. Any project of the humanities, . . . should thus also be a project of the inhumanities, of how civilizations are built on forgotten barbarism toward others, of how the heart of darkness beats within. No wonder, then, that . . . remembering is a ghostly verb. Memory is haunted, not just by ghostly others but by the horrors we have done, seen, and condoned. . . . The troubling weight of the past is especially evident when we speak of war and our limited ability to recall it. Haunted and haunting, human and inhuman, war remains with us and within us, impossible to forget but difficult to remember.32

谈到战争时，记忆与失忆之间的基本辩证关系，因而并不只是记住或忘记某些事件或人物。……公正的记忆要求……在伦理记忆的辩证关系中迈出最后一步——不仅是在记住自己人和记住他者的伦理之间运动，还要转向一种承认的伦理，看见并记住非人性如何存在于人性之中。因此，任何人文学科的事业……也应该是一项研究非人性的事业，探究文明如何建立在对他人的、已被遗忘的野蛮行径之上，以及黑暗之心如何在内部跳动。难怪……“记忆”是一个充满幽灵意味的动词。记忆萦绕着幽灵，不仅是幽灵般的他者，也包括我们曾经实施、看见和纵容的恐怖。……当我们谈到战争，以及我们回忆战争的有限能力时，过去沉重而令人不安的分量尤为明显。既被幽灵萦绕又萦绕他人，既有人性又有非人性，战争仍与我们同在、存在于我们之中，无法忘却，却又难以记起。
