[P001]

英文原文

In the 2000s, two controversies concerning the massacre at Thammasat University broke out involving Samak Sundaravej, a right-wing demagogue in 1976 and the minister of interior in the Thanin government. During 1976 and 1977, the government sent him around the world to spread the (false) information that the Vietnamese had instigated the bloodshed that had resulted in only a few Vietnamese dead. He has enjoyed a prominent political career since then thanks to his conservative, populist persona, which earned him a strong, loyal base. In 2000, he ran for governor of Bangkok. Ji (Giles) Ungphakorn, a professor at Chulalongkorn University and one of Puey’s sons, challenged him in public to clarify his involvement in the October 6 massacre. Samak denied any role in it, let alone the actual killing, saying that he was far away from TU, as if involvement required his presence at the scene. Samak was cunningly evasive about his role in the anticommunist propaganda, in public misinformation, and in fanning hatred before and after the massacre, all of which had contributed to the tragedy. He refused to admit that he lied to the public in 1976 and 1977 about the massacre.1 Dismissing Ji’s allegation as a political ploy to damage his electoral campaign, Samak then sued Ji for defamation, forcing Ji to stop his argument about the massacre. Many former activists and public intellectuals joined the fray, mostly condemning Samak’s role in fueling the massacre and his evasiveness, lack of remorse, and political and moral irresponsibility. Despite these reactions, Samak won the election by a landslide.2 The general public was indifferent to the past atrocity.

中文译文

2000年代，围绕法政大学屠杀爆发了两场涉及沙马·顺达卫（Samak Sundaravej）的争议。他在1976年是一名右翼煽动家，后来担任他宁政府的内政部长。1976至1977年间，政府派他周游世界，传播（虚假的）说法：越南人煽动了流血事件，而事件只造成少数越南人死亡。此后，凭借其保守民粹主义者的形象，他始终拥有相当成功的政治生涯，赢得强大而忠诚的支持基础。2000年，他竞选曼谷市长。朱拉隆功大学教授、贝·翁帕功（Puey Ungphakorn）的儿子之一吉（吉尔斯）·翁帕功（Ji/Giles Ungphakorn），公开要求他澄清自己参与10月6日屠杀的情况。沙马否认在事件中扮演任何角色，更不用说亲手杀戮；他说自己当时远离法政大学，仿佛只有亲临现场才算参与。他巧妙回避自己在屠杀前后反共宣传、误导公众、煽动仇恨中的角色，而这些行为都促成了悲剧。他拒绝承认自己在1976和1977年就屠杀一事欺骗公众。　沙马把吉的指责说成是破坏其选举的政治把戏，随后以诽谤起诉吉，迫使后者停止讨论屠杀。许多前活动人士与公共知识分子加入争论，主要谴责沙马助长屠杀的角色、他的回避、缺乏悔意，以及政治和道德上的不负责任。

尽管出现这些反应，沙马仍以压倒性优势赢得选举。　　普通公众对过去的暴行漠不关心。

[P002]

英文原文

In February 2008, Samak brought another controversy on himself when, as the new prime minister, he gave an interview to CNN. When questioned about his involvement in the October 6 massacre, he denied it, then added, “only one person died.” The outrageous remark epitomized his denial of the massacre. Public outcries erupted from every direction, even within his party, but Samak remained as evasive as ever. He made no attempt to modify his portrayal of the massacre, let alone show any remorse. The controversy faded away by the end of the month.3

中文译文

2008年2月，刚刚出任总理的沙马接受美国有线电视新闻网（CNN）采访，再次惹出争议。当被问及自己与10月6日屠杀的关联时，他加以否认，随后补上一句“只有一个人死了”。这番令人愤慨的言论集中体现了他对屠杀的否认。各方舆论哗然，连他所在政党内部也有批评，但沙马依旧回避。他丝毫不打算改变自己对屠杀的描述，更不用说表达悔意。争议到月底便逐渐平息。

[P003]

英文原文

These controversies are emblematic of social memory of the massacre in the 2000s in many respects, but I point out two of them in particular. First, it was evident that the reactions against Samak’s remarks did not affect his popularity. Polls at the time indicated that the public neither cared much about the massacre nor supported the pursuit of truth.4 People who cared about it and hoped for an admission of guilt or remorse were only a limited segment of the political public. Second, and more troubling, was that Samak was the only target of public contempt. Despite their far more devastating actions, no efforts were made to denounce individuals within the police, military, and other paramilitary right-wing groups except the Red Gaurs. The palace was never mentioned despite its involvement in the conspiracy of Thanom’s return and its role in the mobilization of the deadly Village Scout and the anticommunist hysteria that led to the massacre.

中文译文

这些争议在许多方面体现了2000年代有关屠杀的社会记忆，但我特别指出两点。第一，对沙马言论的抗议显然没有影响他的人气。当时的民调表明，公众既不太在意屠杀，也不支持追寻真相。

关心此事、希望有人认罪或悔过的人，只是政治公众中有限的一部分。第二，更令人不安的是，沙马成了公众唯一鄙视的目标。虽然警察、军队和其他右翼准军事组织成员的行为后果更为惨重，除了红色野牛（Red Gaurs），却无人试图谴责其他个人。王室也从未被提及，尽管它参与了他侬回国的阴谋，并在动员致命的乡村童子军、制造最终导致屠杀的反共狂热中扮演角色。

[P004]

英文原文

At a time when many in Thai society were trying to move on from the pains and fatigue of societal conflicts, some forgetting was understandable. Both leftist radicalism and

ultraconservativism gradually lost their appeal. Meanwhile, the military's political power was in decline, and the hegemony of the monarchy was unchallenged in its ascent after the uprising against the military regime in 1992. Parliamentary democracy under the hegemony of the palace—or "royal democracy," as I call it—was in place from the mid-1990s to the mid-2000s.5 Economically, Thailand was enjoying a period of ten to fifteen years of economic exuberance from the mid-1980s until the bubble burst in 1997. This chapter elaborates on these changing conditions of the post-1976, post-leftist generations and their effects on the memory of the two October events. In what ways was either meaningful, if at all, in a period of relative prosperity under royalist dominance?

中文译文

在泰国社会许多人试图摆脱社会冲突带来的痛苦与疲惫时，一定程度的遗忘可以理解。左翼激进主义与极端保守主义都逐渐失去吸引力。与此同时，军方政治权力衰退，而1992年反军人政权起义之后，王室的霸权持续上升，未受挑战。1990年代中期至2000年代中期，王室霸权下的议会民主——我称之为"王家民主"——得以实行。　经济方面，从1980年代中期到1997年泡沫破裂，泰国经历了十到十五年的繁荣时期。本章进一步阐述1976年之后、左翼衰退之后的几代人所处条件的变化，以及这些变化对两次十月事件记忆的影响。在王室主导的相对繁荣年代，两次事件究竟还有什么意义，又以何种方式有意义?

[P005]

英文原文

This chapter explains the social memoryscape of the October 6 massacre in recent decades. The state's suppression and the silence of the perpetrators and victims that this book has presented thus far have had some lasting effects, certainly. This chapter, though, pays more attention to the cultural and ideological factors that have shaped the memories of the massacre over generations. After several observations on the selective memory of the massacre over generations, it turns to the importance of cultural and ideological factors in determining which truth and history are worthy of remembering. The ideological factors function like a narrative frame, on the one hand, shaping the meaning of the past, yet, on the other hand, screening out and marginalizing unwanted stories and meanings. No narrative frame in Thai cultural history, I argue, can accommodate the memory of the massacre. Instead, the normative frame renders the memory irrelevant and meaningless across generations. Hyperroyalism produces loyal citizens willing to live within the state discourse of selective memory that omits naming certain perpetrators for the sake of country. This results in a "minimalist" memory of the massacre.

中文译文

本章解释近几十年来10月6日屠杀的社会记忆景观。本书此前呈现的国家压制，以及加害者和受害者的沉默，当然产生了一些持久影响。不过，本章更加关注跨越世代塑造屠杀记忆的文化和意识形态因素。在观察跨世代的选择性记忆后，接着讨论文化与意识形态因素如何决定哪些真相和历史值得被记住。一方面，这些意识形态因素像一个叙事框架，塑造过去的意义；另一方面，它们也过滤并排斥不受欢迎的故事与含义。我认为，泰国文化历史中没有任何叙事框架能够容纳屠杀记忆。相反，规范性的框架使这种记忆跨越世代后变得无关紧要、失去意义。极端崇奉王室的思想塑造了忠诚公民，他们愿意生活在国家选择性记忆话语之内，为了国家而不指出某些加害者的

名字。这造成了有关屠杀的“最小化”记忆。

[P006]

英文原文

These factors contribute to the memory slide or shift that takes place over generations. Memory slide is common and usually regarded only as a natural fading process in response to time. In the case of the October 6 massacre, however, the common memory slide is a false memory of the “October 16 incident” that never took place. I argue that memory of an incident that never took place is not merely a memory fade or a careless mix-up. Instead, it is a logical outcome of the dominant ideology combining with a creative literary construction of memory, resulting in a narrative suitable to the post-1976 ideological and intellectual environment. Finally, the acceptable frame that makes certain memories of the massacre more relevant to the environment of later generations than others also emerged in the form of Puey-the-icon. To move on, Thai society has opted for silence and various forms of memory slide. Public indifference to the massacre in the 2000s and unwillingness to name the perpetrators other than Samak and the Red Gaurs are among the symptoms of the memory slide.

中文译文

这些因素促成了跨世代的记忆滑移或转变。记忆滑移很常见，通常只被视为随时间自然淡忘的过程。然而，就10月6日屠杀而言，一种常见的记忆滑移却是关于从未发生过的“10月16日事件”的虚假记忆。我认为，记住一个从未发生的事件，并不只是记忆褪色或疏忽混淆；相反，它是主导意识形态与富有创造力的文学式记忆建构相结合的合乎逻辑的结果，形成了适应1976年之后意识形态与思想环境的叙事。最后，一种可以接受的框架也出现了，它使有关屠杀的某些记忆比另一些更适合后世代的环境，其代表是被符号化的贝·翁帕功。为了继续前行，泰国社会选择沉默以及各种形式的记忆滑移。2000年代公众对屠杀的冷漠、不愿指认沙马与红色野牛以外的加害者，都是记忆滑移的症状。

Indifference and Selective Memory over Generations

跨越世代的冷漠与选择性记忆

[P007]

英文原文

Shortly after the CNN interview controversy in 2008, a group of artists presented their latest works about the October 6 massacre in the exhibit “Flashback’ 76: History and Memory of the October 6 massacre.” All were known for their remarkable works about the massacre since the commemoration in 1996. These new works focused on selective memory, “power-memory-erasure,” and Samak was the clear target.6 After studying every word in the brochure and every piece of art work published in it, I cannot help but wonder whether these artists recognized any other perpetrators beyond or larger than Samak. In a way, Samak was among the easier targets: easy to hate for his demagogic, egomaniac character, and his prominence since 1976 as a populist, ultraconservative politician. The Red Gaurs, too, were villains we could blame without disturbing any major political and social institutions. It seems that these artists, too, have chosen to live with selective memory.

中文译文

2008年CNN采访争议后不久，一群艺术家举办了展览《闪回76：10月6日屠杀的历史与记忆》，展示他们关于屠杀的最新作品。自1996年纪念活动以来，这些艺术家就因创作关于屠杀的杰出作品而闻名。新作聚焦“选择性记忆”“权力—记忆—抹除”，沙马显然是批评目标。　读完展册中的每一句话、看完其中刊载的每一件作品，我不禁怀疑，这些艺术家是否承认除了沙马之外还有其他加害者，甚至更重要的加害者。从某种意义上说，沙马是比较容易攻击的目标：由于他煽动民意、自我膨胀的性格，以及自1976年以来作为民粹主义、极端保守政治人物的显赫地位，他很容易招人憎恨。红色野牛也可以成为恶人，供人指责而不必触动任何主要的政治和社会机构。看来这些艺术家也选择活在选择性记忆之中。

[P008]

英文原文

In 2008, a historian reported on his informal survey of Thai students that asked how much they knew about the two October events and that of May 1992. First, he did a Google search by the Thai words for all three. The results for October 6, he found, were far more numerous than for the other two. He then conducted brief surveys of students at TU and Silapakorn University, breaking down the people he surveyed into undergraduate students, graduate students, and people passing through the two campuses randomly, 240 people in all. The results showed that more people in every group said that they knew about October 14, 1973, and May 1992, but not about October 6. The historian concluded from his unscientific survey that despite more discourse about the October 6 massacre on social media, people, especially the youth of that generation, knew less about it than the other two incidents.7 A decade earlier, in 1996, I did a survey of fifty-eight undergraduate students at TU asking them to describe the two October events in brief, either the cause, the main protagonists, or the outcome. Almost all of them (fifty-five) could say something accurate about October 14, 1973. Only half (twenty-eight) could do the same about October 6, 1976. Three were confused about which October event was which.

中文译文

2008年，一名历史学家报告了他对泰国学生开展的一项非正式调查，询问他们对两次十月事件和1992年五月事件了解多少。首先，他用三个事件对应的泰文关键词进行谷歌搜索，发现10月6日的结果远多于其他两个。随后，他在法政大学与艺术大学（Silapakorn University）进行简短调查，把受访者分成本科生、研究生，以及随机经过两个校园的人，共240人。调查发现，每一组都有更多人表示了解1973年10月14日和1992年5月，却不了解10月6日。历史学家根据这项并不科学的调查得出结论：尽管社交媒体对10月6日屠杀的讨论更多，但人们，尤其当时的年轻人，对它的认识反而少于另两起事件。　十年前的1996年，我曾调查法政大学58名本科生，请他们简述两次十月事件，可以说明原因、主要参与者或结果。几乎所有人（55人）都能准确说出一些1973年10月14日的情况；只有一半（28人）能同样说明1976年10月6日。另有三人混淆了两次十月事件。

[P009]

英文原文

In June 2002, Seksan Prasertkul, the most famous student leader of the 1970s (mentioned in chapter 5), who by then was teaching at TU, bemoaned that his students did not seem to care about any political or social issues. The generation that was reaping the fruits of his generation's blood and tears did not seem to understand the spirit and value of the past struggles and sacrifices. They cared for nothing but themselves. This observation was typical in intellectual circles during the 1990s to 2000s, comparing the critical and skeptical spirit of the youth in the mid-1970s with its absence in later generations.

中文译文

2002年6月，1970年代最著名的学生领袖色山·巴色坤（第5章曾提及）当时在法政大学任教，他感叹学生似乎对任何政治和社会议题都不关心。这一代人享受着他那一代人以鲜血和眼泪换来的成果，却似乎不理解过去斗争与牺牲的精神和价值。他们只关心自己。这种观察在1990至2000年代的知识界十分常见，人们把1970年代中期青年人的批判与怀疑精神，同后世代缺乏这种精神进行对照。

[P010]

英文原文

Reactions from the younger generation are also abundant. They argued, for example, that the 1970s generation must share the blame for its inability to sustain the memory and understanding of past struggles. Even the former radicals, some younger people argue, were not willing to speak out beyond the accepted limits and failed to tell the whole truth even about themselves. Instead, they often tried to justify their past within the new political context.8 Another questioned the focus on violence and brutality in the memories of October 6. Reproducing violence and retaliation, he argues, is the opposite of the state's anticommunist discourse but similar to it nonetheless.9 The 1970s generation must stop blaming the later one for failing to remember the October 6 incident correctly.10

中文译文

年轻一代对此也有大量回应。例如，他们认为1970年代一代人必须为没能延续对过去斗争的记忆与理解承担部分责任。一些年轻人指出，甚至前激进人士也不愿超出社会可接受的界限发声，即使谈到自己，也没能说出全部真相；相反，他们常尝试在新的政治环境下为自己的过去辩护。另有人质疑10月6日记忆为何如此聚焦暴力与残忍。他认为，反复再现暴力和报复虽然与国家的反共话语立场相反，本质却仍有相似之处。　1970年代的一代人必须停止责怪后世代不能正确记住10月6日事件。

[P011]

英文原文

Perhaps the most common explanation for the younger generation's indifference and selective memory is the lack of information and knowledge. The result has been memory fade, the "short memory" of a society over generations. In the case of October 6, critics usually point to the state's control of public information about the incident for many years afterward. The haphazard public information available hardly came together in a comprehensible narrative. The state's censorship of school curricula also affected public knowledge over generations. In response to the controversy in 2000 ignited by Puey's son's challenge to Samak, a group of

academics set up a fact-finding commission. They interviewed sixty-two people, almost all of whom were former student activists—the victims. The testimonies were a good collection of the victim's memories, their firsthand accounts of the massacre more than twenty years later, after the memories had been absorbed and processed, and when their lives were securely normalized.11 Its effect on public knowledge of the massacre was negligible, however, due to the lack of support by any public or private authorities. Calls to allow information about the massacre in school textbooks followed every controversy, but they always faded away without result. Silence and the unwillingness to speak out among those involved certainly contributed to the lack of public awareness. The 1996 breakthrough enabled public recognition of the massacre but did not make it adequately understood. Some scholars of the younger generation have commented that a bundle of facts, with an emphasis on the brutality of the event, may not be enough in the present context.12

中文译文

对于年轻一代的冷漠与选择性记忆，最常见的解释或许是信息和知识不足，其后果是记忆褪色，是社会跨越世代的“短暂记忆”。对于10月6日，批评者通常指出，国家在事后多年一直控制相关公共信息。零散可得的信息几乎无法组成可理解的完整叙事。国家对学校课程的审查也影响了世代之间的公众知识。2000年，贝的儿子向沙马发出质疑，引发争议；随后一群学者成立了真相调查委员会，采访62人，几乎全部是前学生运动参与者——受害者。这些证词较好地汇集了受害者在二十多年后对屠杀的亲历记忆；此时记忆已被吸收、处理，他们的生活也重新稳定。 然而，由于缺乏任何公共或私人机构支持，这项工作对公众了解屠杀几乎没有影响。每次争议后，都会有人要求把屠杀信息收入学校教科书，但呼声总是无果而终。相关人士的沉默和不愿发声无疑加剧了公众的无知。1996年的突破让屠杀得到公众承认，却未能让人们充分理解它。一些年轻一代学者指出，在当前环境下，仅仅罗列事实、突出事件的残酷程度，可能还不够。

[P012]

英文原文

Lack of information and knowledge is certainly a factor. But is that all that's involved in selective memory and memory fade? Is lack of information the cause of indifference and selective memory, or a symptom of something else? What are the conditions and factors that contribute to remembering or not remembering? What makes the memory of October 6 meaningful in certain ways but not others over generations?

中文译文

信息和知识不足当然是一个因素。但选择性记忆和记忆褪色就只有这一原因吗？信息缺乏是冷漠和选择性记忆的原因，还是其他问题的症状？哪些条件与因素促使人们记住或不记住？为什么10月6日记忆在不同世代会以某些方式有意义，而以另一些方式却没有意义？

[P013]

英文原文

Studying memory politics under the repressive governments of Argentina over many decades, Elizabeth Jelin argues that, even without new facts or the discovery of some unfound truth, whether a memory endures depends on the frame that makes it meaningful or not and in what

ways to the present and later generations.13 Studying the memories of Pinochet's Chile over generations, Steve Stern explains the "emblematic memory" as "a framework for collective remembrance rather than its specific content . . . that organizes meaning, selectivity, and counter-memory" of individual memory, making it meaningful in the contemporary context instead of being marginalized.14 What we usually call the lesson from the past is the meaningfulness of memory over time and generations. It makes memory relevant, or otherwise, in the contemporary context. The meaningfulness of a memory, however, is interpretive, that is, it depends on the frame or perspective in particular political and ideological contexts and in power relations over time.

中文译文

伊丽莎白·耶林（Elizabeth Jelin）长期研究阿根廷压制性政府下的记忆政治，认为即使没有新事实、也没有发现尚未揭露的真相，一段记忆能否延续，仍取决于赋予其意义的框架：这个框架使它对当下及后世代具有何种意义，或不具意义。　　史蒂夫·斯特恩（Steve Stern）研究皮诺切特时代智利的跨世代记忆，提出"标志性记忆"（emblematic memory）是一种"用于集体记忆的框架，而非其具体内容……它组织个人记忆的意义、选择性与反记忆"，使记忆能在当代环境下获得意义，而不是被排挤。　　我们通常所说的历史教训，其实就是记忆跨越时间和世代所具有的意义；它使记忆与当下相关，或者无关。然而，记忆的意义具有解释性，也就是说，它取决于特定政治与意识形态环境，以及随时间变化的权力关系中的框架或视角。

The "Thai" Truth

"泰式"的真相

[P014]

英文原文

After the May 1992 bloodshed in Bangkok, the government launched an investigation into what happened and why. The result, however, was essentially nothing. After a long delay and much foot-dragging, the state, especially the military, obstructed the release of the report requested by relatives of the victims. In 2000, eight years after the uprising, the report was released to the public but with 60 percent of the text blacked out, including all names of military officials and key information. National security was the reason given. The report was incomprehensible. Despite that, the military warned that anyone publicizing the report would "do so at their own risk" and be subject to libel lawsuits. Samak did the same to shut up his critics when he sued Puey's son in 2000. A charge of defamation is another instrument used to prevent truth in Thailand, as David Streckfuss has meticulously documented.15 The state and the military did not deny or forget the May 1992 bloodshed, however. They attended the official commemoration every year. Instead, they brushed aside the uncomfortable truths, recognizing only what suited them. Halftruths are an approach the Thai state and society use to deal with the uncomfortable past. Unlike May 1992, however, which has been half-heartedly accepted by the state in its narrative of progress to democracy, the October 6 massacre does not have an acceptable half-truth. No truth is another approach, no matter how noisy the demand is.

中文译文

1992年5月曼谷流血事件后，政府启动调查，试图弄清发生了什么以及原因。但结果基本上什么也没有。经过漫长拖延和种种推诿，国家，尤其军方，阻止公布受害者家属要求的报告。直到起义八年后的2000年，报告才对公众发布，但其中百分之六十的文字被涂黑，包括所有军方官员姓名和重要信息。所给理由是国家安全。报告因此根本无法理解。尽管如此，军方仍警告任何公开传播报告者都须“自行承担风险”，可能面临诽谤诉讼。2000年沙马起诉贝的儿子，正是以同样手段让批评者噤声。正如大卫·斯特雷克福斯（David Streckfuss）细致记录的，诽谤指控是泰国阻挡真相的另一种工具。　　但国家和军方并未否认或忘记1992年5月流血事件；每年他们还会出席官方纪念活动。相反，他们只把令人不舒服的真相扫到一边，承认对自己有利的部分。“半真相”是泰国国家与社会应对难堪过去的一种方法。不过，和国家至少勉强将其纳入民主进步叙事的1992年5月不同，10月6日屠杀没有可以接受的“半真相”。无论真相呼声多么喧嚣，“没有真相”便成了另一种方法。

[P015]

英文原文

After the crackdown in 2010, the result of the conflict between the Red Shirts and Yellow Shirts, the government that ordered the killing mandated a commission to investigate it. The unwieldy name of the commission in Thai was a rendition of its official name in English, the Truth for Reconciliation Commission of Thailand (TRCT).16 Both its name and its public rhetoric and activities, indicated that the TRCT was trying to liken itself, in concept and political mission, to the famous TRC in South Africa. It organized several meetings and seminars on the subject of transitional justice, including a state-promoted, nationally televised event with world-renowned speakers.17 Unfortunately, especially after over two years of publicity, the commission’s final report was short on both facts and truth.18 Most important, it stops short of identifying the right and wrong of the incident. When the wrongdoings were clear on a few issues, the wrongdoers were not, except the blame on the men in black, the phantom-like protesters. No abuse of power or excessive force by the authorities was cited, even though more than two hundred thousand rounds of bullets were fired, and snipers contained the unrest, which resulted in ninety dead in the streets of Bangkok. The TRCT’s recommendations sidestepped justice, suggesting mostly academic remedies and reparations. It endorsed reconciliation without truth or justice. By contrast, an independent investigation organized by a group of academics and political activists with no state support produced a thorough factual report with detailed analyses of the who, what, and when of the complex incident. Finished even before its TRCT counterpart, the 1,390-page report points to the abuse of power and excessive force for political purposes.19 The TRCT was another whitewash of another atrocity by the state.

中文译文

2010年红衫军与黄衫军冲突导致镇压后，下令杀戮的政府授权一个委员会调查。该委员会的泰文名称冗长笨拙，是其英文正式名称“泰国真相与和解委员会”（Truth for Reconciliation Commission of Thailand，TRCT）的翻译。　　从名称、公开言辞和活动看，委员会试图在理念和政治使命上效仿南非著名的真相与和解委员会（TRC）。它组织了数次关于转型正义的会议和研讨，包括一场由国家推动、全国电视转播、世界知名演讲者参加的活动。　　不幸的是，在两年

多宣传造势后，委员会最终报告既缺事实也缺真相。　　最重要的是，它没有明确指出事件中的是非。少数问题确实指出有不当行为，却不指出行为者，唯独把责任归于那些幽灵般的示威者——“黑衣人”。报告没有指出当局滥权或使用过度武力，尽管当时开枪超过二十万发，狙击手参与镇压骚乱，造成曼谷街头九十人死亡。TRCT的建议回避正义，主要提出学术性的补救措施和赔偿方案。它认可没有真相、没有正义的和解。相比之下，一群学者和政治活动人士没有国家支持，却组织独立调查，完成一份全面的事实报告，详细分析这场复杂事件的人物、经过与时间。长达1390页的报告甚至早于TRCT的版本完成，指出当局为政治目的滥权并使用过度武力。

TRCT是国家对另一场暴行的又一次粉饰。

[P016]

英文原文

Why does the Thai state continue with these farcical performances and why does the Thai public allow it? Scholars of Thailand have noticed the significance of face and face-saving in Thai public culture.20 However, the denials of these bloody events are so stark and outrageous that the whitewash would seem to damage the government’s reputation even more. A clue to the conundrum may lie in Peter Jackson’s suggestion, that face, looking good, or reputation in the Thai context operates differently from what we usually assume, especially the idea of face in relation to power and truth.

中文译文

为什么泰国国家不断上演这种荒诞表演，泰国公众又为何容忍？研究泰国的学者注意到泰国公共文化对面子和保全面子的重视。　　但对这些流血事件的否认如此明显、如此骇人，粉饰反而似乎更加损害政府声誉。解开这一矛盾的线索，或许在彼得·杰克逊（Peter Jackson）的观点中：泰国情境下的面子、体面形象或声誉，运作方式与我们通常理解的不同，尤其是面子与权力、真相的关系。

[P017]

The regime of images is . . . [a] form of power that exerts . . . control over actions and discourse in the private and public spheres . . . When statements or representations do not conform [to the] idealized forms, and are perceived as disrupting, the image of smooth calm . . . both formal (legal) and informal (cultural) modes of power, may be mobilized to expel the unwanted representations from the public domain. This regime of power/knowledge has epistemological implications, determining what can and cannot be articulated as public knowledge in Thailand.21

中文译文

形象体制是一种……权力形式，它对私人和公共领域的行动及话语施加……控制……当言论或表述不符合［那些］理想化形式、被认为会扰乱平滑而平静的形象时……正式（法律）与非正式（文化）的权力方式都可能被动员起来，把不受欢迎的表述逐出公共领域。这种权力／知识体制具有认识论上的影响，决定了在泰国什么可以、什么不可以被表述为公共知识。

[P018]

英文原文

More simply, the conspicuous denial of what actually happened is not regarded as a denial of truth because the idealized form (image) is the higher (and more important) truth than what actually happened. Another scholar calls it “truth-above-truth” (khwam ching nua ching), the latter truth referring to the reality, fact, or experiential truth that we normally understand, and the former referring to Jackson’s “idealized forms,” which I call the “normative truth.”22 Based on the religious notion of transcendental truth, or Dharma in Buddhism, the normative truth is aspired to as the destination that one (person, institution, nation, and so on) tries to achieve. The reality is the imperfect, partial, developing stages on the path toward the normative truth. In other words, the actual reality is impermanent or transient. It does not represent the true Thailand in normative conditions.

中文译文

更简单地说，对实际发生之事的明显否认不被视为否认真相，因为理想化形式（形象）比实际发生的事更是“高层次”（也更重要）的真相。另一位学者将其称为“真相之上的真相”（khwam ching nua ching）；后一个“真相”指我们通常理解的现实、事实或经验性真相，前一个则指杰克逊的“理想化形式”，我称为“规范性真相”。 规范性真相以宗教意义上的超越性真相——佛教中的法（Dharma）——为基础，被作为一个人、机构、国家等努力达到的目标。现实只是通往规范性真相的道路上尚不完美、局部而持续发展的阶段。换句话说，实际现实是无常、暂时的，不能代表规范状态下真正的泰国。

[P019]

英文原文

The display of the cleansed reputation or normative image results in the kind of superficial pretension, or euphemistic and hypocritical show, which has become integral to Thai statecraft. Every military regime in Thailand has shamelessly called itself a democracy of some sort. In 2017, the junta even declared human rights part of the national agenda, despite innumerable protests from the United Nations Human Rights Commission against the junta’s serious violations from the time it took power in 2014. The junta showed no concern that its declaration was an insult to the intelligence of the entire world and exposed the regime’s ignorance and foolishness.

中文译文

展示经过清洗的声誉或规范性形象，会产生某种表面的做作、委婉或虚伪的表演，并已成为泰国治国方式的一部分。泰国每届军人政权都毫无羞耻地把自己称作某种民主。2017年，军政府甚至宣布人权属于国家议程，尽管自2014年夺权以来，联合国人权委员会已多次抗议该政权严重侵犯人权。军政府毫不担心，这样的声明侮辱了全世界的智识，也暴露出政权的无知与愚蠢。

[P020]

英文原文

It appears that the regime’s ideas of democracy, human rights, and truth are not the same as what is commonly understood. The junta probably speaks its own language about truth. The shamelessly clean image and the denial of an atrocity are not intended to fool the outside world. Rather, it represents the public image (face) in the Thai cultural grammar that the Thai

state must show to the domestic public. The junta must reaffirm the normative image, not the reality, which is the lesser, partial, and unfinished truth. The latter is secondary in importance and thus should not be formalized; it is perhaps admissible in the private sphere but not in the public. The whitewash is, therefore, the confirmation of the normative truth above the transient, imperfect one that we normally call reality.

中文译文

看来，政权所理解的民主、人权和真相，与一般人的理解并不相同。军政府或许在使用自己关于真相的语言。毫无羞耻地展示洁净形象并否认暴行，并不是为了欺骗外部世界；它代表了泰国文化语法中的公共形象（面子），泰国国家必须向国内公众展示这种形象。军政府必须重申的是规范性形象，而不是现实。后者是较低层次、局部且尚未完成的真相，因此重要性居次，不应被正式确定；它或许在私人领域可以被承认，但不应进入公共领域。所以，粉饰其实是在确认规范性真相高于我们通常称为现实的、暂时而不完美的真相。

[P021]

英文原文

The prevalent idealized form or normative truth in Thailand has another name, khwam pen thai, or Thai-ness. It is a catchall ideal that Thai society yearns for even though many scholars of Thailand have exposed it as illusory and hollow. It is so deceptive and yet powerful that many Thais, for whom it is all consuming and ubiquitous, believe that non-Thai people cannot understand it. One of the most often invoked qualities of Thai-ness is harmony (khwam samakkhi, usually translated as unity). Harmony is a manifestation of Dharma, that is, the state of orderliness and equilibrium among life and things, human and nature, and human relations. Harmony is often described metaphorically as stories or in organic terms such as the body whose parts and organs all have their place and functions to perform.23 Thai-ness, then, is an orderly existence with things in their proper place and functioning, otherwise, illness and disease will result for individuals as well as for society. One of the tasks of the state is to maintain such harmonious normalcy of the social order by reaffirming the normative truth repeatedly in the public sphere.

中文译文

泰国普遍存在的理想化形式或规范性真相，还有一个名字：khwam pen thai，即“泰国性”（Thai-ness）。这是一个无所不包的理想，泰国社会渴望它，尽管不少泰国研究学者已经揭示其虚幻空洞。它如此具有欺骗性，又如此强大，以至许多泰国人——对他们而言它无处不在、包罗万象——相信非泰国人根本无法理解。最常被援引的泰国性特质之一是“和谐”（khwam samakkhi，通常译为团结）。和谐是“法”的体现，也就是生命与事物、人与自然及人际关系处于有序均衡的状态。人们经常用故事或身体这类有机体来比喻和谐，身体各部分和器官都有恰当的位置与应履行的功能。　　因而，“泰国性”就是一个万物各居其位、各尽其职的有序存在，否则个人与社会便会生病。国家的一项任务是通过不断在公共领域重申规范性真相，维持这样的社会秩序与和谐常态。

[P022]

英文原文

The logic of normative and transient truth also applies to politics (the power relations between the rulers and the ruled) and the social order (the orderly relations among people). That is, the normative truth of Thai-ness is the most important one. Any action, speech, or thinking that could disturb the normative Thai-ness, where harmony and unity are foremost, must be dealt with to restore normalcy. “[In] contemporary Thai political and social discourse,” Streckfuss writes regarding political defamation trials, “there is in fact a difficulty in accepting, recognizing, acknowledging, or acting upon [reality],” and the ultimate criteria for guilt or innocence is not the factual truth but its effects on or danger to the normative one, namely, the nation, religion, king, Thai-ness, and the moral order.24 Regarding the October 6 massacre, therefore, the historical truth is secondary to the normative truth. Not only does it not fit the normative narrative, it severely undermines it as well. The only normative truth pertinent to the massacre is the virtue of harmony and reconciliation, not historical truth or justice. This reminds me of Stanley Tambiah’s point that the discourse on reconciliation may be even more effective in a Buddhist society in which the “cosmology of unity,” or in modern incarnation—national harmony and the like—has always been an ideological premise.25 The calls for harmony and reconciliation rather than justice and truth are always loud during and after a crisis, even after nearly a hundred were killed in 2010. Seen in this light, the absence of truth in the TRCT’s report fits the Thai cultural context very well.

中文译文

规范性与暂时性真相的逻辑也适用于政治（统治者与被统治者之间的权力关系）和社会秩序（人们之间有序的关系）。也就是说，泰国性的规范性真相最重要。任何可能扰乱以和谐团结为首要原则的规范性泰国性的行动、言语或思想，都必须被处理，以恢复正常状态。斯特雷克福斯讨论政治诽谤审判时写道：“［在］当代泰国政治与社会话语中，实际上存在一种难以接受、认识、承认或根据［现实］行动的困境。”最终判定有罪或无罪的标准，不是事实真相，而是其对规范性真相的影响或危险——即对国家、宗教、国王、泰国性与道德秩序的影响或危险。 因而，对于10月6日屠杀，历史真相次于规范性真相。它不仅不符合规范叙事，还严重削弱了后者。与屠杀相关的唯一规范性真相，是和谐与和解的美德，而非历史真相或正义。这让我想起斯坦利·坦比亚（Stanley Tambiah）的观点：在一个“团结的宇宙观”——或其现代化身如民族和谐——始终是意识形态前提的佛教社会，和解话语可能更有力量。 在危机之中及之后，人们总是高声要求和谐与和解，而非正义与真相，即使2010年近百人遭到杀戮之后亦然。从这个角度看，TRCT报告中缺少真相，十分符合泰国文化情境。

Historical Comprehensibility and Otherwise

历史的可理解性及其界限

[P023]

英文原文

History in the Thai cultural context is not necessarily the interpretive knowledge that explains what happened in the past and the changes over time.26 It is instead primarily the story about the past that confirms the normative truth. Perhaps like the Jataka—the stories of pervious births of Lord Buddha—in Theravada tradition, history is the story of previous incarnations of the present imagined community called Thailand. It is purportedly correct according to the normative truth about the state and the ideology of Thai-ness.

中文译文

在泰国的文化情境中，历史不一定是解释过去发生了什么及其随时间如何变化的解释性知识。

相反，它首先是一种关于过去的故事，用于确认规范性真相。或许像上座部佛教传统的本生故事（Jataka）——讲述佛陀前世的故事——一样，历史讲述着名为泰国的当下想象共同体的前世。据称，这些故事符合有关国家的规范性真相与泰国性的意识形态。

[P024]

英文原文

Modern Thai historiography is a saga of the unity of Thai people under benevolent rulers, mostly the monarchy, to confront the threats and suffering caused by foreign countries in order to survive and prosper.27 The customary master narrative always begins with the peaceful and independent Thai kingdom facing danger from colonizing aliens. Troubles and suffering ensue. Fortunately, a heroic and benevolent warrior always emerges to protect or restore independence. Under his leadership and righteousness, the country rises in peace and prosperity. According to this master narrative, the state and the rulers were mostly benevolent and ruled by virtue. The spectacle of murder by a great king is only an allegory of his vast virtue against Evil. Mass destruction was either a justified battle against the enemy or the suppression of malicious rebels and thus not a state crime. If a ruler turned into a despot, a righteous contender would soon challenge and depose him. A massacre by the state is therefore an alien concept, usually heard from an international news report or found in histories of other countries. Streckfuss writes sarcastically, “[Thai kings are] treated with laudatory odes: not depictions from real life, but edificatory snippets, bloodless moments of praise so blinding that it washes away any hint of irony or satire. Thai history will have no dictators, no massacres, no corruption, no coups.”28 A massacre by the state, I might add, in the reign of the most virtuous king was unthinkable, let alone one in which the palace was implicated.

中文译文

现代泰国史学是一部传奇，讲述泰国人民如何在主要由王室构成的仁慈统治者领导下团结起来，对抗外国造成的威胁和苦难，以求生存与繁荣。 惯常的宏大叙事，总是以一个和平、独立的泰国王国遭遇殖民外敌威胁开始。危机与苦难随之而来。幸好，总有一位英勇仁慈的武士出现，保卫或恢复国家独立。在他的领导与正义之下，国家重归和平繁荣。依照这种宏大叙事，国家和统治者大多仁慈，以德治国。伟大国王的杀戮场面，只是象征其浩瀚德行战胜邪恶的大寓言。大规模毁灭不是针对敌人的正义战争，就是镇压邪恶叛乱，因此并非国家犯罪。如果统治者变成暴君，很快就会有正义的挑战者将其推翻。所以，国家屠杀是一个陌生概念，人们通常只在国际新

闻报道或别国历史中听说。斯特雷克福斯讽刺地写道：“［泰国国王］被赞颂诗歌所对待：那不是现实生活的描写，而是教化性的短章，是不沾血的赞美瞬间，耀眼到洗去所有讽刺与嘲弄的痕迹。泰国历史将不会有独裁者、不会有屠杀、不会有腐败、不会有政变。”　　我还要补充：在最有德行的国王统治期间发生国家屠杀，根本无法想象，更不用说王室本身牵涉其中。

[P025]

英文原文

Thailand, however, is not a fantasyland that is blind to reality or to its tragic past, even if it is considered an aberration to the normative truth. So how does Thailand deal with the reality of an atrocity in its past? Memory is always a projection from the perspective of the present. The latter is formed and informed to some extent by historical discourses, however. Historical knowledge provides the frame, or the prior texts, that help determine and shape what of the past we remember and how we remember it. Is a crime by the state a comprehensible concept? How would it fit into the narrative of Thai history? What made the October 6 event difficult for Thais to take in is the lack of historical precedent, the prior text, about the state’s massacre of its people.

中文译文

然而，泰国并非看不到现实或悲剧过去的幻想之国，即使这些被视为偏离规范性真相。那么，泰国如何面对过去暴行的现实？记忆始终是从当下视角向过去的投射。不过，这个当下视角在一定程度上由历史话语塑造并获得信息。历史知识提供一个框架，或先在的文本，帮助决定和塑造我们记住过去的哪些内容，以及如何记住。国家犯罪是个可理解的概念吗？它怎样才能纳入泰国历史叙事？泰国人之所以难以理解10月6日事件，是因为缺乏国家屠杀自己人民的历史先例，缺乏相应的先在文本。

[P026]

英文原文

All recent incidents of popular struggle—the October 1973 uprising, the October 1976 massacre, the May 1992 and May 2010 bloodlettings—deviated sharply from the normative Thai historical discourse in many respects. First, in these incidents the country’s independence was not at stake and no foreign threat was involved (though some attempted to view the 1976 incident as a Vietnamese or Chinese conspiracy). Despite this fact, in all cases the state justified its actions as necessary measures to protect the country’s security and independence. The justification did not work; although it was accepted for the 1976 massacre for a time, eventually it failed there too. What happened cannot be subsumed in a narrative of struggle against an alien enemy, only in one of a state crime against its own people. Second, these incidents were stories of mass revolts against despots and their abuse of power in history. Some skeptical voices downplayed the legitimacy of a popular struggle, usually reducing it to merely the pawns of a power struggle among ruling factions. Despite that, the significance of people’s power in the four incidents cannot be discounted. Third, the four incidents show repeatedly that Thailand is anything but peaceful. Violence and brutality on a large scale have erupted often among Thais. Especially in October 1976, violence and brutality were committed in the name of Thai-ness.

中文译文

近代每次民众斗争事件——1973年十月起义、1976年十月屠杀、1992年五月与2010年五月流血事件——在许多方面都严重偏离泰国规范性历史话语。首先，这些事件并未危及国家独立，也不涉及外国威胁（虽然有人试图把1976年事件解释成越南或中国阴谋）。尽管如此，所有事件中，国家都以保护国家安全与独立的必要措施为理由为其行动辩护。但理由并不成立；虽然一度在1976年屠杀上被接受，最终还是失效。发生的事情不能被纳入反抗外敌的叙事，只能被理解为国家针对本国人民的犯罪。第二，这些事件是人民大规模起义反对历史上暴君及其滥权的故事。一些怀疑之声淡化人民斗争的正当性，通常把他们贬为统治派系权力斗争的棋子。尽管如此，四次事件中人民力量的重要性不可否认。第三，四起事件一再表明泰国绝非和平国度。泰国人之间屡次爆发大规模暴力与残忍行径。尤其在1976年10月，暴行竟以“泰国性”的名义实施。

[P027]

英文原文

These bloodlettings are difficult for the narrative of Thai history to accommodate. They do not fit the master narrative of the national saga of unity under a benevolent ruler for development and prosperity. They are at odds with the noble biography of the country. Yet so many people participated in these uprisings and their impacts were so significant that they are not easy to dismiss and forget. Such popular struggles will exist only on the margins of the memorable past as long as they challenge the normative national history. Over the past forty years, these events have not been forgotten but the discourses about them are limited; the truth has never been fully accounted and their places in history are unclear.

中文译文

这些流血事件很难被泰国历史叙事容纳。它们不符合在仁慈统治者领导下团结发展繁荣的民族史宏大叙事，与国家崇高的传记格格不入。然而，参与起义的人如此多，影响如此深远，难以简单抹去或遗忘。只要人民斗争挑战规范性国史，它们就只能存在于值得纪念的过去的边缘。过去四十年，这些事件并未被忘记，但有关它们的话语有限；真相从未得到充分交代，它们在历史中的位置也不清楚。

[P028]

英文原文

Among the four incidents, the massacres in 1976 and 2010 are probably most difficult to fathom. Because the master narrative of Thai history is also about an ever-advancing country, development and progress are always implied. The October 1973 and May 1992 incidents were major political developments toward democracy in Thailand and thus also fit the master narrative. Even though the military may view these two incidents differently, they are officially recognized by the state and widely heralded among the public. The annual commemorations of these two events are attended by state dignitaries every year. Even after the 2014 coup by one of the most repressive regimes in modern Thai history, representatives of the junta attended the annual commemorations of these two events. The October 1976 and the 2010 killings, however, were political setbacks, not political developments. The 1976 massacre was the sad end even to the radicals. It was a loss for everyone, whatever their perspective.

中文译文

四次事件中，1976年和2010年的屠杀恐怕最难理解。由于泰国历史的宏大叙事还讲述一个不断前进的国家，总会暗含发展与进步。1973年十月和1992年五月的事件，是泰国迈向民主的重大政治进展，因此也能符合宏大叙事。即使军方看法不同，这两起事件还是得到国家正式承认，并在公众间广受赞扬。每年相关纪念活动都有国家显要出席。即使在现代泰国史上压制性最强的政权之一于2014年发动政变后，军政府代表仍出席两起事件的年度纪念活动。1976年十月和2010年的杀戮却是政治挫败，而非政治进展。1976年屠杀甚至对激进人士而言也是一个悲伤的终结。无论从哪个角度看，对每个人都是损失。

[P029]

英文原文

How the 1976 massacre should be included in the narrative of the history of democracy in Thailand is therefore an enigmatic question. In 1993, at the commemoration of the 1973 uprising, the two events were part of a seamless, linear narrative of democratization. At that time, still amid the relative silence before 1996, the October 6 massacre was worthy of mention as part of the bumpy road to democracy.29 It survived in public memory, we might say, by taking a ride with the acceptable October 1973 uprising, by blending itself quietly into the story of political progress. At the inauguration of the October 14 Memorial in 2001, however, different views and attitudes were in force.30 Relative to the 1973 and 1992 events, the 1976 massacre seems to exist on the edge of the comprehensible past, or has fallen off the edge into an adjacent domain of ambivalence and silence. Mary Steedly's words about the public memory of the 1965 bloodshed in Indonesia (before the fall of Suharto in 1998) are apt for the 1976 massacre in Thailand: "the story unspoken is no more than an invisible inscription along history's silent edge, marking an official limit placed upon the past by the present."31

中文译文

因此，如何把1976年屠杀纳入泰国民主历史的叙事，成为一个难解的问题。1993年，在纪念1973年起义的活动中，两起十月事件被放进一套平滑、线性的民主化叙事。当时仍处于1996年前的相对沉默之中，10月6日屠杀仍值得被作为通往民主坎坷之路的一部分提及。 可以说，它通过搭上可被接受的1973年十月起义的顺风车，通过悄然融入政治进步的故事，才得以存留在公共记忆中。然而，到2001年10月14日纪念碑揭幕时，不同的观点与态度已占据上风。 相比1973年与1992年事件，1976年屠杀似乎存在于可理解的过去的边缘，或已经掉出边缘，进入邻近的矛盾和沉默领域。玛丽·斯蒂德利（Mary Steedly）关于印度尼西亚1965年流血事件公共记忆（1998年苏哈托倒台以前）的说法，同样适用于泰国1976年屠杀：“未被说出的故事，只不过是历史沉默边缘上的一道无形铭刻，标记着当下对过去施加的官方限度。”

[P030]

英文原文

Last but not least, Thais generally take pride in their history, as much as they know it, of relatively not-so-violent political conflicts. The massacre delegitimized their pride, destroying their belief, confidence, and trust that violent carnage could not happen in their country. It exposed the fallacy and the limits of Thai national history. It created a counterhistory of the

nation that cannot be written out. The question remains, what is the place of such a counterhistory within the Thai master narrative? Currently, October 6 is considered an unfortunate tragedy, an indescribable tarnish (roi dang), an aberration that should not have happened. It is a counterhistory on the edge of the normative one. It is a thorn in history's side.

中文译文

最后同样重要的是，泰国人普遍为自己所知道的、政治冲突相对不那么暴力的历史感到自豪。屠杀使这种自豪失去合法性，摧毁了他们的信念、信心和信任——他们原本相信如此残酷的杀戮不可能发生在自己的国家。屠杀暴露了泰国民族史的谬误与界限，创造了一段无法抹除的国家反历史。问题仍然是：这种反历史在泰国宏大叙事中占有什么位置？目前，10月6日被视为不幸的悲剧，难以言说的污点（roi dang），一个本不该发生的异常事件。它是规范性国史边缘上的反历史，是历史侧边的一根刺。

Hyperroyalism and the Minimalist Memory

极端保皇主义与最小化记忆

[P031]

英文原文

Because many important and powerful institutions of the Thai state, including the palace, were involved in the massacre, popular indifference and selective memory were partly the result of fear for possible consequences. In a country with an authoritarian history and unreliable rule of law, this concern of ordinary citizens is reasonable. Such fear could last over generations. The involvement of the palace presented a quandary. Reverence for the monarch as a semi-deity, and especially one of King Bhumibol's stature, was irreconcilable with the palace's involvement in the tragedy. At the very least, an allegation of the palace's wrongdoing constitutes lèse majesté, which in Thailand is a more serious crime than murder. Forty years later, in 2016, many relatives of the fatal victims were still afraid to speak out because they knew the massacre was a la-iat-on (sensitive) issue.32

中文译文

由于泰国国家许多重要而强大的机构，包括王室，都牵涉屠杀，公众冷漠与选择性记忆部分源于对可能后果的恐惧。在一个拥有威权历史、法治不可靠的国家，普通公民有这种担忧是合理的。这种恐惧可能延续数代。王室的介入造成了两难困境。人们把君主崇奉为半神，尤其是像普密蓬国王这样地位崇高的人，很难把这种敬仰同王室涉及悲剧联系起来。至少，指控王室犯错构成冒犯君主罪（lèse majesté）；在泰国，这比谋杀还严重。四十年后的2016年，许多遇难者亲属仍不敢发声，因为他们知道屠杀是一个 la-iat-on（敏感）议题。

[P032]

英文原文

The promotion of royalism and the cult of Bhumibol began in earnest in the 1960s, thanks partly to the United States, as an ideological weapon with which to fight communism. On the one hand, several Brahmanic rituals were revived to enhance the aura of sacred king. On the other, thanks to television and print media, ordinary Thais frequently saw the selfless monarch

for themselves, often with maps, pens, and a notebook in hand, a camera around his neck, complete with beads of sweat on his face. The cult of Bhumibol promoted his semi-divinity, and hyperroyalism is the intensification of such royalism. The cult of Bhumibol and royalist fervor intensified between 1973 and 1976 when the palace and the Thai state were afraid of Thailand's becoming the next regional domino to fall to communism, and when the student movement turned radical. But even after the domestic Cold War was over in the early 1980s, hyperroyalism continued as the politico-cultural condition for the ascendency of royal democracy, which is a parliamentary system under the dominance and guidance of the monarchy.33

中文译文

从1960年代开始，部分在美国支持下，泰国认真推动保皇主义与普密蓬崇拜，把它作为对抗共产主义的意识形态武器。一方面，恢复数种婆罗门仪式，以增强神圣国王的光环；另一方面，借助电视和印刷媒体，普通泰国人经常亲眼看到无私奉献的君主，常常手持地图、钢笔与笔记本，脖子挂着相机，脸上还带着汗珠。普密蓬崇拜宣扬其半神性，极端保皇主义（hyperroyalism）则是这种保皇主义的进一步强化。1973至1976年，王室和泰国国家担心国家成为地区内下一个倒向共产主义的多米诺骨牌，加上学生运动转向激进，普密蓬崇拜和保皇热情进一步高涨。但即使1980年代初国内冷战结束后，极端保皇主义仍作为保皇式民主上升的政治文化条件持续存在。所谓保皇式民主，就是在王室支配和指导下实行的议会制度。

[P033]

英文原文

The characteristics of hyperroyalism in Thailand are as follows.34 First, royalism permeated everyday life with increasing demands for public expressions of loyalty to the monarchy. The monarchy became omnipresent via extravagant public displays of royal symbols and platitudes. The annual celebrations for royal birthdays, which began in the 1960s, became grander, escalating at ten-year anniversaries, at every twelve-year life cycle celebration, and at other special royal occasions, sometimes involving yearlong activities nationwide.35 Second, hyperroyalism indulges in exaggeration and exaltation, so members of the royal family are often touted by royalists and their acolytes as being the best in every field and profession, from sports, fashion, and acting, to scientific research, academics, the arts, and social service. The king and queen became the figurative parents of all Thais.36 Hyperbole becomes normative; eulogies become truth. Every virtue in the nation must be credited to the king. Even the winning of an Olympic medal was attributed to Bhumibol's virtue.37

中文译文

泰国极端保皇主义具有以下特征。　　首先，保皇主义渗透日常生活，公众被不断要求公开表达对王室的忠诚。通过奢华地公开展示王室标志和套话，王室变得无处不在。始于1960年代的每年王室成员生日庆典越来越盛大，在逢十周年、每个十二年生命周期以及其他王室特别场合更为隆重，有时举办一整年、覆盖全国的活动。　　第二，极端保皇主义沉溺于夸大和颂扬，保皇派及其追随者经常把王室成员吹捧成所有领域和职业的佼佼者，从体育、时尚、表演，到科研、学术、艺术与社会服务。国王和王后成了所有泰国人的象征性父母。　　夸张成为规范，颂词成为真相。国家的一切美德都必须归功于国王，甚至赢得奥运奖牌也被说成是普密蓬的德行所致。

[P034]

英文原文

Third, the state controls public discourse about the monarchy— what can and cannot be said—by the threat of the lèse majesté law. Article 112 of the Thai criminal code reads, “Whoever defames, insults or threatens the King, Queen, the Heir-apparent or the Regent shall be punished with imprisonment of three to fifteen years.” The state has been abusing the law in every aspect—procedure, enforcement, severity of punishment, interpretation—to foster and protect hyperroyalism.38 As a result, royalism becomes akin to religion; dissention becomes blasphemy. Fourth, the manufacture, reproduction, and proliferation of hyperroyalism are not exclusively attributed to the palace and state. Civil society actively participated in the production and circulation of hyperroyalism, including the suppression of dissents. Hyperroyalism is not simply manipulation by an Orwellian state. It is a public culture.

中文译文

第三，国家利用冒犯君主罪的威胁，控制关于王室的公共话语——什么能说，什么不能说。泰国刑法第112条规定：“任何诽谤、侮辱或威胁国王、王后、王位继承人或摄政王的人，处三年至十五年监禁。”国家在程序、执行、量刑严重程度和解释等方面滥用这项法律，以培植和保护极端保皇主义。　　结果，保皇主义变得近似宗教，不同意见则成为亵渎。第四，极端保皇主义的制造、复制和扩散，并不能完全归于王室或国家。公民社会积极参与极端保皇主义的生产与传播，也参与压制异议。极端保皇主义不只是奥威尔式国家的操控，它是一种公共文化。

[P035]

英文原文

In this environment and given the ideology that the monarchy is indispensable for the country, it is not surprising that an ordinary Thai without any particular ideological politics would not believe the palace was involved in the massacre. To them, the October 6 massacre was inexplicable. How, then, to remember and make sense of such an event? One either has to confront the truth that would likely shake one’s lifelong faith in a virtuous monarchy, or keep the faith intact at the expense of the truth, history, and memory. In the environment of hyper-royalism from the late 1970s and royal democracy from the 1990s, such an enigma was resolved by silencing the truth and expunging the skepticism of the monarchy from memory in order to uphold faith in its virtue. Hence the indifference to calls for serious investigation into the atrocity and the selective memory of the perpetrators of the massacre.

中文译文

在这样的环境下，加上王室对国家不可或缺的意识形态，没有特定政治立场的普通泰国人不相信王室参与屠杀，并不奇怪。对他们而言，10月6日屠杀无法解释。那么，该如何记住并理解这样的事件？人们要么面对可能动摇终身信仰——相信王室富有德行——的真相，要么牺牲真相、历史和记忆，维持信仰完整。在1970年代末以来极端保皇主义的环境，以及1990年代以来的保皇式民主中，这一困境通过让真相沉默、从记忆中抹除对王室的怀疑来解决，以维护对其德行的信仰。因此，公众漠视对暴行展开认真调查的要求，并对屠杀加害者形成选择性记忆。

[P036]

英文原文

These ordinary people may sympathize with the victims but would never cross the line to question the monarchy even slightly. Their faith in the monarchy makes them blind to any facts and allegation that are incongruous with it. In this environment, even some former victims are willing to forget the palace's roles in the past and to support the good causes and dedication of the monarchy instead. Moreover, many were honestly concerned that the blemish on the royal stature, let alone a criminal implication, might trigger unfathomable repercussions across the country. All of this contributed to the voluntary silence and collective amnesia about the palace and the massacre for the sake of the greater good. It is not unusual to find a former victim of the massacre and anticommunist hysteria in 1976 turned, a few decades later, to celebrate the greatest monarch on earth.39

中文译文

这些普通人可能同情受害者，却绝不会越过界线，对王室提出哪怕一点质疑。他们对王室的信仰，使他们无法看见任何与之不符的事实或指控。在这种环境下，甚至一些前受害者也愿意忘记王室过去的角色，转而支持王室的善行与奉献。此外，许多人真诚担忧，王室威望的污点，更不用说刑事牵连，可能在全国引发无法想象的后果。所有这些都助长了为了更大利益而自愿保持沉默、集体遗忘王室与屠杀的现象。一个1976年屠杀与反共狂热的受害者，数十年后转而赞颂世上最伟大的君主，这并不罕见。

[P037]

英文原文

Pitch Pongsawat argues that discourse about October 6 has reached its limits in the political and ideological condition that he calls the "Great Post-October 1976 Consensus." This politico-cultural condition built up throughout the 1980s and reached its full impact in the 1990s—the same chronology as hyperroyalism. Under it, permissible political discourse must fall within the following parameters: it must be beneficial to political development, supportive of royal democracy under the supremacy of the monarchy, uncritical of the monarchy, and uncritical of the conservative notion of Thai nationalism and Thai-ness.40 When applied to the memory of the massacre, these parameters result in what Pitch Pongsawat calls the minimalist memory. This memory emphasizes the horror of the incident without naming the perpetrators to make sure that the discourse is not a threat to the political and cultural establishment or to royal democracy. Within these prescribed parameters, discourse on the radical past is not forbidden; it need not remain hidden as long as it does not cross the line and become critical or dangerous, such as by implicating the palace in the October 6 massacre.

中文译文

皮奇·蓬萨瓦（Pitch Pongsawat）认为，关于10月6日的话语已达到一种政治和意识形态条件下的界限，他称之为"1976年十月之后的大共识"（Great Post-October 1976 Consensus）。这种政治文化条件在1980年代逐渐形成，于1990年代发挥充分影响——与极端保皇主义的发展年代完全相同。在这种条件下，允许存在的政治话语必须符合若干界限：有益于政治发展、支持王室至上的保皇式民主、不批评王室，也不批评泰国民族主义与泰国性的保守观念。 当这些界限用于屠杀记忆，就产生了皮奇所称的"最小化记忆"（minimalist memory）：它强调事件的恐怖，却不指出加害者的名字，以确保相关话语不威胁政治文化建制或保皇式民主。在这些规定界限内

，讨论激进过去并未被禁止，只要不越线变得批判性或危险，例如把王室牵涉进10月6日屠杀，就不必完全隐匿。

Memory of the October 16 Incident

“10月16日事件”的记忆

[P038]

英文原文

Pitch presciently points out that a new narrative of the October 6 massacre that fits the post-1976 condition has emerged.41 Not only has the political environment since the 1980s expunged the memory of the perpetrators and the elements that are sensitive to the establishment, it has also produced a new narrative, but one that is not of the events that took place. Instead, it is the story of October 16, an event that never happened.

中文译文

皮奇敏锐地指出，一种符合1976年后条件的10月6日屠杀新叙事已经出现。 1980年代以来的政治环境不仅抹除了加害者以及对建制敏感的因素的记忆，还生产了一种新叙事。但这不是对真实发生事件的叙述，而是关于从未发生过的“10月16日”的故事。

[P039]

英文原文

Often when people talk about the October events, they confuse the names in the Buddhist calendar (BE), namely, 14 tula 16 for the 1973 uprising on 14 October BE 2516, and 6 tula 19 for the 1976 massacre on 6 October BE 2519. The two names have a common denominator, the month tula (October), and the numbers that can be easily mixed up—14, 16, 6, 19. Hence, the October 16 event. But the confusion could be more than just a slip of the tongue. The two incidents shared other elements: the main actors—students and the military (although this is not precise); the actions—student protests against military rule and violent suppressions with fatalities; and the place—Thammasat University.

中文译文

人们谈论十月事件时，经常混淆佛教纪年（BE）下的名称：1973年10月14日起义，佛历2516年，叫作 14 tula 16；1976年10月6日屠杀，佛历2519年，叫作 6 tula 19。两种名称共有“tula”（十月），还有容易混淆的数字——14、16、6、19。于是便出现“10月16日事件”。不过，混淆可能并不只是口误。两起事件还分享其他要素：主要行动者——学生和军方（尽管这个说法不够精确）；行动——学生抗议军人统治，以及造成死者的暴力镇压；地点——法政大学。

[P040]

In the relative silence that stretched on for decades, these common denominators of the two narratives began to form a new narrative that merged the two stories into one. Memory slid. How such a slide could happen was visually explained in a performance by the young theater group known as B-Floor, in October 2013, the fortieth anniversary of the 1973 October

uprising.42 According to a report, the performance, titled “Typhoon,” is about Thai political history from the 1932 revolution to the conflicts between the popular movements and the elites in 2010. It shows that

中文译文

[P042]

英文原文

The report clarifies further that Thai history is known by the younger generations by certain keywords. In both the October 14, 1973, and the October 6, 1976, incidents, many key elements were similar, namely, the student protests, the demands for democracy, the military suppressions, and the benevolent King Bhumibol who resolved the conflicts, ended the violence, and restored peaceful society. According to the report, the performance presented how the younger generation learned history in school, as if children moved through an assembly line and emerged with prepackaged information. History is absorbed like cutting and pasting pictures. All mysteries, inglorious episodes, and loose ends are eliminated. According to the report, a student commented, “I cannot distinguish between the October 14, 1973, and the October 6, 1976, incidents.” Pitch summarizes this kind of memory slide in sci-fi parlance: “In my experience of teaching students since 1995, I have found that the ‘October 16 event’ was a time-space compression of the two October events into the same plot, that is, the fight against military dictatorship, an uprising, but they were surrounded and killed.”44 To him, this is how the memory of the October 6 massacre survives among the younger generation and has become

a public memory, regardless of inaccuracy. Pitch forgets the final act of the October 16 narrative, that is, the king intervened and brought an end to the killing.

中文译文

该报道进一步澄清，年轻一代通过一些关键词来认识泰国历史。1973年10月14日与1976年10月6日，两起事件许多关键因素相似，例如学生抗议、要求民主、军方镇压，以及仁慈的普密蓬国王出面解决冲突、停止暴力、恢复和平社会。据报道，演出呈现年轻一代如何在学校学习历史，仿佛儿童沿着装配线前行，出来时脑中已有预先包装好的信息。历史像剪贴图片一样被吸收，所有谜团、不光彩的篇章和悬而未决的线索都被消除。一名学生据报道评论道：“我分不清1973年10月14日事件和1976年10月6日事件。”皮奇用科幻语言总结这种记忆滑移：“根据我自1995年以来教学生的经历，我发现‘10月16日事件’是把两次十月事件压缩进同一个情节中的时空压缩：也就是反抗军事独裁、起义，但他们遭到包围并被杀。”　　对他而言，这就是10月6日屠杀的记忆如何在年轻一代中存活、成为公共记忆，尽管并不准确。皮奇忘了“10月16日”叙事的最后一幕：国王介入，结束杀戮。

[P043]

英文原文

To me, the fallacy of the October 16 memory is not upsetting. It is fascinating. The highlights of the two events (or the keywords for the report of the “Typhoon”) facilitate the fusion of the two stories into one narrative (the time-space compression). It is a story of struggles and sacrifice for democracy before the king intervenes to resolve the tragic conflict. Even though the reality of the king’s role in the two events was in fact quite different, in the context of hyperroyalism and the post-1976 political consensus, the king’s role in promoting democracy and a peaceful resolution have become essential elements of the October 16 narrative, making a glorious ending. That the king did not end the violence on October 6 and did not resolve the conflict at the time is quietly purged from the October 16 narrative.

中文译文

在我看来，“10月16日”记忆的谬误并不令人烦恼，反而十分有趣。两起事件的主要情节（或《台风》报道中的关键词）促使两个故事融合为一个叙事（时空压缩）。这是一个为了民主斗争和牺牲，最后国王介入解决悲剧性冲突的故事。虽然国王在两起事件中实际扮演的角色很不相同，但在极端保皇主义和1976年后政治共识的环境下，国王促进民主、和平解决冲突的角色已经成为“10月16日”叙事必不可少的要素，为其提供光荣结局。国王没有在10月6日制止暴力，也没有在当时解决冲突的事实，被悄然从这个叙事中清除。

[P044]

英文原文

I found no evidence of an effort to concoct this false memory. The merged narrative seems not to be by political design. It is a public memory that was democratically created by the public for the public. As the producer of this memory, the public likes to identify itself with the heroes of democracy. Thus, no need for silencing or suppressing the victims’ voices exists as long as the victims do not transgress the minimalist limits or disturb the dominant politics and ideology. In this story, the tragedy is duly recognized, together with unwavering faith in the monarchy. In

one stroke of the brush of memory, the sacrifices receive recognition without disrupting the dominant historical ideology or the stability of the establishment. The October 16 narrative is a remarkable memory slide that satisfies the need of members of the public to identify themselves with democracy on the one hand and the monarchy on the other. It is an ingenious lie! Or a negotiated truth! Memory loss becomes memory gain in the new environment of the later generation. With this memory slide, Thai society can move on.

中文译文

我没有发现任何证据表明有人有意编造这种虚假记忆。融合的叙事似乎不是政治设计的结果，而是一种由公众、为公众以民主方式创造的公共记忆。公众作为记忆生产者，喜欢把自己认同为民主英雄。所以，只要受害者没有越过最小化记忆的限度，没有扰乱主导政治和意识形态，就不必让他们噤声或压制其声音。在这个故事里，悲剧得到了适当承认，而对王室的信仰也毫不动摇。记忆画笔只需一挥，牺牲便获得认可，而不扰乱主导历史意识形态或建制稳定。“10月16日”叙事是一种非凡的记忆滑移，同时满足公众一方面认同民主、另一方面认同王室的需要。这是一个巧妙的谎言！或者是一种协商出来的真相！在后世代的新环境下，记忆丧失成了记忆收获。借助这种滑移，泰国社会就能继续前行。

[P045]

英文原文

The mentioning of the October 16 event is often disturbing to those who experienced the 1976 massacre.45 They may always perceive it as an insult. But this memory slide is indeed logical and explainable. Although its construction is perhaps akin to cut-andpaste, the narrative is neat and includes political meanings that harmonize with the familiar historical frame and are thus easier to remember. The historical ideology of Thai-ness helps organize the confusing story elements into a comprehensible and logical story according to its concepts and parameters, even though the October 16 event never took place.

中文译文

提到“10月16日事件”，往往会令亲历1976年屠杀的人不安。　　他们可能始终把它视为侮辱。但这种记忆滑移确实有其逻辑，可以解释。虽然其建构或许类似剪切粘贴，叙事却很整齐，并包含与熟悉的历史框架相和谐的政治意义，因此更容易被记住。泰国性的历史意识形态，帮助依据自身概念和界限，把混乱的故事元素组织成可理解、有逻辑的叙事，尽管10月16日事件从未发生。

Acceptable Memory: Puey-the-Icon

可接受的记忆：被符号化的贝·翁帕功

[P046]

英文原文

Previous chapters have discussed the memory of Puey Ungphakorn in two ways: as a victim whose words were chosen as the visible voice of the October 6 monument and as a silent protester for truth and justice. What is the message of the chosen statement? What is the meaning of Puey's voice that Thai society cares to hear?

中文译文

前几章已从两个方面讨论贝·翁帕功（Puey Ungphakorn）的记忆：他是受害者，其言语被选作10月6日纪念碑可见的声音；他也是为真相与正义沉默抗议的人。被选中的那段话要传达什么？泰国社会愿意倾听的贝的声音，究竟有何意义？

[P047]

英文原文

Puey's words at the base of the monument read as follows: "What is most regrettable is the fact that young people now have no third choice. If they cannot conform to the government, they must run away. Those interested in peaceful ways to bring about freedom and democracy must restart from square one." The selection of this statement was part of the original design that both the artists and the public agreed upon.46 It reflected the thinking of the artists, members of the public who participated in the brainstorming session, and probably many former radicals at the time as well. The addition of his figure into the relief and the funding from his admirers to complete the monument made his association with the memory of the massacre stronger, especially after his death in 1999. But this statement is not about a historical fact. It is a "lesson" from the massacre that, from Puey's perspective, Thai society should learn. It was how, in Puey's belief, October 6 was meaningful and relevant to Thai society at that time and long afterward. It is fair to say that the artists and the participating public also considered this lesson to be the most relevant meaning of the massacre given that the citation was inscribed in stone.

中文译文

纪念碑基座上的贝的话是："最令人遗憾的是，如今年轻人没有第三种选择。如果不能顺从政府，就必须逃走。那些希望以和平方式实现自由与民主的人，必须从头开始。"选择这段文字，是艺术家与公众共同同意的初始设计的一部分。 它反映了艺术家、参与头脑风暴的公众，可能还有当时许多前激进人士的想法。浮雕中增加贝的形象，加上其仰慕者为完成纪念碑提供资金，使他与屠杀记忆的联系更为紧密，尤其在他1999年去世之后。不过，这段话不是历史事实，而是贝认为泰国社会应从屠杀中吸取的一项"教训"。在他看来，10月6日就是以这种方式对当时及长久之后的泰国社会具有意义和相关性。既然这段引文被刻在石头上，可以说艺术家与参与的公众也认为，这项教训是屠杀最有现实意义的含义。

[P048]

英文原文

In the discourse on the massacre, this statement represents a moderate, centrist position. It reminds people of the danger of polarization and extremism. Along with the changes in the

design of the monument, which made the monument to the massacre part of the broader struggle for democracy, it also reflects the strong support from political moderates and the fact that major funding for the monument came from those who saw Puey as the representative of victimhood. One of Puey's most iconic traits is his consistent and persistent advocacy for nonviolence. He coined the term santi-prachatham (people's Dharma of nonviolence) as the principle or philosophy for political and social relations. Although he never elaborated it into a formal treatise, it is evident in his writings over the years and in his acclaim by the public.47 It has been an integral element of his reputation. This centrist position nudges others, including more radical ones, to the margins.

中文译文

在关于屠杀的话语中，这段话代表一种温和的中间立场，提醒人们注意两极化和极端主义的危险。纪念碑设计的变化让屠杀纪念碑成为更广泛的民主斗争的一部分；这段话也反映出政治温和派的大力支持，以及纪念碑的主要资金来自那些视贝为受害者代表的人。贝最具代表性的品质之一，是始终坚定倡导非暴力。他创造了 santi-prachatham（“非暴力的人民之法”）一词，作为政治与社会关系的原则或哲学。虽然他从未将其写成正式的系统著作，但它在其多年文字及公众赞誉中清晰可见。 这一直是其声誉不可或缺的一部分。这种中间立场把其他人，包括更激进的人，推向边缘。

[P049]

英文原文

In the context and political environment since the 1990s, Puey was probably the ideal victim of the October 6 incident. An educated person of great integrity, he was denigrated, disrespected, and threatened by a mob. His efforts in the years that followed were tremendous. His writing on the massacre was probably the best known in the country. With the end of the Cold War in the mid-1980s, his courage and integrity throughout the turmoil in 1976 grew even more striking as the excesses of the anticommunist era began to appear more absurd. In his absence from Thailand, his reputation for incorruptibility and his santi-prachatham philosophy grew stronger. Puey has been iconized by institutions such as Thammasat University and the Bank of Thailand as well as by the public. Puey-the-icon was in the middle, under pressure from both the left and the right in 1976. A musical performance of his biography, “Mongkon salat klet: the musical” (Puey the Musical), in 2015 made this point clearly.48 His santi-prachatham is integral to his moderate lesson. His philosophy and lesson harmonize perfectly with the post-1976 consensus and the hyperroyalist era. Puey-the-icon offers the wisdom that makes the memory of the massacre relevant to present generations.49 But it is tamed. It is impossible to know whether Puey himself was comfortable with his iconization or with the way his memory has been employed to tame the danger of the October 6 memory. But neither he nor his descendants have control over Puey-the-icon in the public memory.

中文译文

在1990年代以来的环境和政治条件下，贝可能是10月6日事件最理想的受害者。他受过良好教育、品格正直，却遭暴民诋毁、侮辱和威胁。此后数年的努力巨大。他关于屠杀的文章可能是全国最广为人知的文字。1980年代中期冷战结束后，随着反共年代的过激行为显得越来越荒谬，他在1976年动荡时期的勇气与正直更显突出。在离开泰国期间，他廉洁无私的声誉与

santi-prachatham 哲学愈加受到推崇。法政大学、泰国银行等机构以及公众，都把贝塑造成一个象征。被符号化的贝在1976年居于中间，受到左派与右派两方压力。2015年一部关于其生平的音乐剧《Mongkon salat klet》（《贝的音乐剧》）清楚表达了这一点。　　他的非暴力人民之法，是温和教训不可分割的部分。他的哲学与教训同1976年后的共识和极端保皇时代完全和谐。被符号化的贝提供一种智慧，使屠杀的记忆对当下世代具有现实意义。　　但这种记忆已被驯服。我们无法知道贝本人是否乐见自己被符号化，或者自己的记忆被如此利用来驯服10月6日记忆的危险性。不过，无论是他本人还是后人，都无法控制公共记忆中的那个“贝的形象”。

[P050]

英文原文

Although it is a counterhistory, dangerous to the historical ideology and the status quo, the memory of October 6 has been tamed in many ways that go beyond the state’s attempts at suppression. The normative historical ideology of the hyperroyalist public in effect produced a minimalist memory and a false one. It also framed the relevant but harmless lesson of the massacre, none of which would disturb the status quo. The perplexing quandary of how to remember the October 6 massacre was lessened, by suppression, by silence, by the demand for reconciliation and to let bygones be bygones, and by memory slide. Even a false memory or one that is only minimally true is acceptable when truth has been swept under the rug.

中文译文

虽然10月6日的记忆是一种危及历史意识形态和现状的反历史，却已在许多方面被驯服，而且远不止国家的压制尝试。极端保皇主义公众的规范性历史意识形态，实际上生产了最小化记忆和虚假记忆，还为屠杀提供了一种与现实相关却无害的教训；这一切都不会扰乱现状。通过压制、沉默、要求和解与既往不咎，以及记忆滑移，人们如何记住10月6日屠杀的困惑两难得到缓解。当真相被扫到地毯之下，即使是虚假的记忆，或只包含极少部分真相的记忆，也可以被接受。
