英文原文

At the 1996 commemoration of the Thammasat University massacre (discussed in chapter 6), the final item on the program was the speeches by well-known figures among the former activists of the 1973–1976 era. Special attention went to Seksan Prasertkul, a charismatic leader of the radical period who, as we may recall from earlier chapters, returned from the jungle as a “historical ruin.” By 1996, he was both a prominent writer who later received one of Thailand’s most prestigious honors for writers and a scholar with a PhD from Cornell University (a student of Benedict Anderson) and a teaching position at TU. His reputation as a scholar, thinker, and social rebel, combined with his literary and oratory prowess and his leadership charisma, have earned him the highest respect even from his opponents and the state. Furthermore, Seksan’s public appearances were infrequent and always commanded special attention.1 His speech at the commemoration was memorable because it declared the name khon duan tula as the collective identity of former activists who had gone through either or both of the two October events in 1973 and 1976, many of whom went through the jungle years as well.2 Literally, the name means “people of the October month,” or the October people. Kasian Tejapira rendered it the Octobrists.3

中文译文

在1996年纪念法政大学屠杀的活动中（第6章已有讨论），最后一项议程是由1973至1976年间著名的前学生运动人士发表讲话。人们尤其关注色山·巴色坤（Seksan Prasertkul）：这位激进年代极具魅力的领导人，正如前文所述，曾以“历史废墟”的身份从丛林归来。到1996年，他既是知名作家——后来获得泰国最有声望的文学奖项之一——又是取得康奈尔大学博士学位（师从本尼迪克特·安德森）、任教于法政大学的学者。他作为学者、思想家和社会反叛者的声望，连同文学及演讲才华、领导魅力，使他获得极高的尊敬，即使反对者和国家也是如此。况且，色山很少公开露面，每次出现都引起特别关注。 他在纪念活动上的演说令人难忘，因为他宣布用 khon duan tula 作为那些经历过1973年和1976年两次十月事件之一或两者的前活动人士的集体身份；他们之中许多人还经历过丛林岁月。 这个名称字面上意为“十月的人”，卡西安·德贾皮拉（Kasian Tejapira）将其译作 Octobrists，即“十月人”。

## [P002]

英文原文

Seksan urged the Octobrists to get over their wounds, politically and emotionally, to restore honor and pride, to regain confidence and strength, and to reengage with the political and

social issues of the time. He called on them to be active again: “For two decades . . . [we’ve been] licking our wounds . . . but now we’ve grown up, we’ve learned some lessons. It would be regrettable if we don’t rise up again.”4 Seksan did not, however, make a concrete suggestion—be it the establishment of any organization or movement or any kind or agenda. Instead, it was a general declaration to the public on behalf of his fellow former activists that the Octobrists were back. At the end of that historic and cathartic commemoration in 1996, the Octobrists were born.

中文译文

色山敦促十月人克服政治与情感上的创伤，恢复荣誉和自豪，重拾信心和力量，并重新投入当时的政治与社会问题。他号召大家再度行动：“二十年来……［我们一直］舔舐伤口……但如今我们长大了，也吸取了一些教训。如果我们不再站起来，那会很遗憾。” 但他并未提出具体建议，无论是建立什么组织、运动还是行动议程。他只是代表前运动伙伴，向公众作出总体宣告：十月人回来了。就在1996年那场具有历史意义、令人宣泄情感的纪念活动结束之际，“十月人”诞生了。

**[P003]**

英文原文

This chapter argues that Octobrist is a political identity shaped by the diverse memories of the past among the former activists of the two October events, not by their politics or ideologies in the present. In other words, the Octobrist identity was a praxis of their collective memory. The Octobrist identity was accompanied by high expectations, thanks to the romanticized perception of the former radicals by the public after the rehabilitation in 1996, especially by the younger generation and political activists. Unfortunately, it was not suited to the political conditions of the 2000s, thus the Octobrists eventually failed again. This time no one defeated them; they defeated one another. Such identity and praxis of memory belonged to the 1970s, not the 2000s.

中文译文

本章认为，十月人是一种政治身份，由参与两次十月事件的前活动人士对于过去的多元记忆塑造，而非由他们当前的政治立场或意识形态决定。换句话说，十月人的身份是其集体记忆的一种实践。这一身份伴随着很高的期望，因为1996年这些前激进人士恢复声誉之后，公众——尤其年轻一代和政治活动人士——对他们形成了浪漫化看法。不幸的是，这种身份并不适应2000年代的政治条件，所以十月人最终再次失败。这一次，没有别人击败他们，是他们彼此击败了对方。这种身份和记忆实践属于1970年代，而不属于2000年代。

## Octobrists in the Eyes of Younger Radicals

年轻激进人士眼中的十月人

**[P004]**

英文原文

My argument engages with a recent book by Kanokrat Lertchoosakul that chronicles the rise and fall of the Octobrists.5 She understands the Octobrists as a social movement of a group of

people with common characteristics thanks to their common political past. The book is rich in information about who is who among them, offering brief accounts of their political experiences in the student movement and in the jungles, then their subsequent rise in every important sector of society—business, media, intellectual, nongovernmental organizations, and politics. The book explains the success of these people despite, and because of, their radical past. They are smart in framing and deradicalizing, in her words, their new identities after the revolutionary years in such ways that made them not only acceptable to society but also recognized as heroes of democracy; she shows not only how they found a space for themselves but also benefited from their new identities. Eventually, some of them went even further, "reconciling" with the monarchy and the military and supporting their antidemocratic politics. Titled The Rise of the Octobrists, the book explains their fall as well. As they distanced themselves from their radical past, they turned to various politics—liberal, democratic, nationalist, and even conservative and royalist. In the polarizing Thai politics since the mid-2000s, the fierce antagonisms among the Octobrists led to public disdain, hence their fall.

中文译文

我的论证回应卡诺克叻·勒差萨坤（Kanokrat Lertchoosakul）最近一本记述十月人兴衰的著作。

她将十月人理解为一场社会运动，其成员因共同的政治过去而具有共同特征。该书提供了大量有关成员身份的信息，简要交代他们曾在学生运动和丛林中的政治经历，以及后来如何在社会各重要领域——商业、媒体、知识界、非政府组织和政治——崛起。它解释了这些人为何虽有激进的过去，却也正因这段过去而成功。借用作者的话说，他们善于"重新框定"并"去激进化"革命年代之后的新身份，使自己不仅被社会接受，更被视为民主英雄；她指出他们如何既找到立足空间，又从新身份获益。最终，一些人甚至走得更远，同王室和军方"和解"，转而支持其反民主政治。该书题为《十月人的崛起》，也解释了其衰落。随着他们远离激进的过去，政治取向逐渐分化为自由主义、民主主义、民族主义，甚至保守主义与保皇主义。自2000年代中期以来的泰国政治日益两极化，十月人内部的激烈对立招致公众鄙视，也由此走向衰落。

## [P005]

英文原文

In a nutshell, the book argues that their successes were due to their ability to alter their radical pasts, both in life and career, as well as in memory. Doing so, however, diminished the history of the Thai radical movement in social memory. The book is fascinatingly informative, yet its arguments are problematic because of its questionable approach to its subject. It takes the radical phase of the long lives of these people as the pivot that defined who they essentially were. The narrative of the deradicalization of these people, then, reads like their degeneration, which denigrates not only their individual pasts but also the place of radicalism in Thai history. The book is a narrative of disenchantment with the Octobrists who prospered at the expense of the history of radicalism.

中文译文

简而言之，该书认为，这些人的成功来自他们改变激进过去的能力，无论是在生活、职业生涯，还是在记忆层面。然而，这样做也使泰国激进运动的历史在社会记忆中被削弱。该书的信息极其丰富、引人入胜，但其论证所采取的研究路径值得质疑。它把这些人漫长一生中短暂的激进阶段

，当作界定其本质身份的核心。于是，对这些人的去激进化叙事读起来像一部堕落史，不仅贬损其个人过去，也贬低激进主义在泰国历史中的位置。它讲述的是人们对十月人的幻灭，因为这些人以牺牲激进主义历史为代价获得了成功。

**[P006]**

英文原文

I offer a different reading. In a nutshell, my narrative is about the Octobrists' short-lived political identity around the turn of the millennium. Rather than taking radicalism as the pivotal essence of these people, we can take it as a brief phase in their lives, though a very important one with lasting impact. In fact, most Octobrists embraced the radical past in their memories, recognizing its impact in shaping their lives ever since. But their radical past was one part of life that included the pre- and postradical years. Their perspectives of Thai radicalism also depended on their longer perspectives. Rather than crafty and effective actors with an extraordinary intellectual and political ability to manipulate their identity minus their radical past to achieve success (that is, the marvel who degenerated), the Octobrists are simply ordinary historical actors who have tried to cope with life in the postrevolutionary years. They struggle with life choices and other conditions like ordinary people. Unlike most others, however, they could not escape from their past or deny it, but had to come to terms with it and move on. From time to time, however, the curse of the past calls on them to take action again; they often respond exactly because they did not, and could not, deny their past as active politicized citizens. Thus, in the late 1990s, they became active again in the name of the Octobrists.

中文译文

我提出另一种解读。简单说来，我的叙事讨论的是千禧年之交十月人那种短暂的政治身份。我不把激进主义当作这些人的核心本质，而把它看成他们生命中虽短暂却极其重要、影响深远的一个阶段。实际上，多数十月人在记忆中都接受自己的激进过去，承认此后的人生始终受到其塑造。但激进经历只是生命的一部分，人生还包括此前和此后的岁月。他们看待泰国激进主义的角度也取决于更长时段的人生视野。十月人不是一群拥有非凡智力与政治技巧、能巧妙而有效地操控身份，抹去激进过去以换取成功的人——不是那些后来堕落的奇才；他们只是普通的历史行动者，在革命结束后的岁月里努力应对生活。他们像普通人一样面对人生抉择和各种处境。然而，与多数人不同，他们无法逃离或否认过去，只能与之和解并继续向前。有时，过去的诅咒又召唤他们行动；他们往往正因为不曾、也不能否认自己作为积极参与政治的公民的过去，才作出回应。因此，到1990年代末，他们再度以十月人的名义行动。

**[P007]**

英文原文

The Octobrist, in my view, was not some radical essence of these people, but primarily a collective political identity of the former radicals of the 1970s who returned to political activism in the late 1990s to the 2000s. The rest of the chapter is my alternative story of the Octobrists relative to Kanokrat's.

中文译文

在我看来，“十月人”并非这些人身上某种激进主义的本质，而主要是1970年代前激进人士在1990年代末至2000年代重新参与政治活动时形成的一种集体政治身份。本章余下部分将相对于卡诺克叻的解释，提出我对十月人的另一种叙事。

## Who Were the Octobrists?

谁是十月人?

**[P008]**

英文原文

Most people, including Kanokrat, understand the term as the meaning provided in the first paragraph of this chapter—real people in actual history. But I propose here to understand Octobrist differently (though not in contradiction to the first meaning), namely, to take it as it is, as a collective political label or identity. It was constructed by the memory of the October events, by the political past as understood and remembered in retrospect by the activists of those events, most— though not all—of whom were former radicals. The first notion is essentialist; the second is discursive. In fact, the first depends on the views and perspectives of various interpretations of history. As a result, the definition of the first meaning is very close, if not identical, to the second—the discursively defined individuals and collectivity. Memory gave birth to this identity, not the other way round. In this light, it was not at all coincident that the name Octobrist emerged and was recognized at the historic commemoration of the October massacre.

中文译文

多数人，包括卡诺克叻，都按照本章首段给出的意思理解这一名称，即实际历史中的真实人物。但我建议换一种方式理解十月人（与第一种含义并不矛盾）：就把它当作一种集体政治标签或身份。它由对十月事件的记忆建构而成，由参与者在事后理解和回忆自己的政治过去而形成，他们之中多数——但并非全部——曾是激进人士。第一种理解是本质主义的，第二种是话语建构的。事实上，第一种理解又依赖对历史的不同解释和观点。所以，第一种含义的界定非常接近，甚至等同于第二种，即由话语界定的个人和群体。是记忆孕育了这种身份，而非身份孕育记忆。从这一角度看，“十月人”这个名称在十月屠杀的历史性纪念活动中出现并得到承认，绝非巧合。

**[P009]**

英文原文

Did the name include every activist involved in those October events or only the former radicals? Who were and were not the Octobrists? People understood it variably, depending on

their views of the two Octobers, regardless of the inclusive nature this identity intended.6 In analyzing the Octobrists, Kanokrat faced the problem of who should be considered in or out throughout her book. By taking the radical experience as the defining characteristic of who the Octobrists are, she does not resolve the problem but compounds it. First, factually speaking, many individuals she identifies as Octobrists in fact never turned radical, and thereby had no need to deradicalize their past. They were active as Octobrists in the late 1990s as well. The more complicated question is what it meant to be a radical in 1970s Thailand. Kanokrat takes it as self-evident given that these former radicals were part of the radical student movement under the heavy influence of the Communist Party of Thailand (CPT) and later joined the CPT's armed struggle. The answer was anything but selfevident, however.

中文译文

这个名称涵盖了参与两次十月事件的所有活动人士，还是只包括前激进人士？谁是、谁又不是十月人？尽管这个身份原本带有包容意图，人们仍会因对两次十月事件的看法不同而作出不同理解。

卡诺克叻在全书分析十月人时，一直面临应将谁纳入、谁排除的困难。她把激进经历作为界定十月人身份的特征，却并未解决问题，反而使它更加复杂。首先，从事实而言，她认定为十月人的不少人实际上从未变成激进派，因此也无须对过去进行去激进化。1990年代末，他们同样积极以十月人的身份活动。更复杂的问题是，在1970年代的泰国，成为激进人士究竟意味着什么。卡诺克叻认为答案不言自明，因为这些前激进人士曾参与深受泰国共产党（Communist Party of Thailand，CPT）影响的激进学生运动，后来又加入共产党的武装斗争。然而，这个问题的答案绝非显而易见。

**[P010]**

英文原文

Collectively, by 1976 the student movement was undeniably a radical one, ideologically and politically, in rhetoric and in actions.

中文译文

从集体层面说，到1976年，学生运动在意识形态、政治立场、言辞和行动上无疑已是一场激进运动。

**[P011]**

英文原文

Kanokrat's argument assumes that the collectivity and the individuals mirror one another. A collective identity, however, is not the sum of individuals, nor do the individuals necessarily mirror the collective whole. Individually, I would argue, the radicals in the Thai student movement of the 1970s were predominantly college youths. Their immersion in the radical ideology was probably like that of most twenty-year-olds. The terms "radical" or "leftist" cannot not tell us anything about their intellectual maturity, cannot distinguish between a committed and a novice radical. It conceals how much and in what ways their pre-radical thinking remained in their radical-ness. As Prajak shows in his study of the student movement during the October 1973 uprising, not only were the activists of the time from diverse backgrounds, including conservative and royalist; the uprising itself was also an outburst of eclectic ideologies, from liberalism to conservativism, from royalism to the New Left.7

中文译文

卡诺克叻的论证假设集体与个人彼此映照。但集体身份并非个人的总和，个人也未必反映集体整体。就个人而言，我认为1970年代泰国学生运动中的激进人士主要还是大学青年。他们浸润于激进意识形态的程度，很可能与大多数二十岁左右的人差不多。“激进”或“左翼”这些词并不能告诉我们其思想成熟程度，也无法区分坚定的激进分子和初学者。它掩盖了他们在多大程度上、以何种方式继续保留激进化之前的思考。正如普拉乍（Prajak）对1973年十月起义期间学生运动的研究指出，当时活动人士的背景非常多样，包括保守派和保皇派；起义本身也是从自由主义到保守主义、从保皇主义到新左派等不同意识形态混杂迸发的结果。

**[P012]**

英文原文

Also, as I argue elsewhere, the 1973 uprising was the turning point for the ascendency of two parallel forces in Thai politics: popular democracy and the monarchy.8 Although many turned radical during the three years afterward, many have remained royalist to this day, and many are neither. Furthermore, the CPT's radicalism was an umbrella for many kinds of discontents at the time. It was the dominant alternative discourse. People were attracted to radical discourse for various reasons: opposition to military rule, capitalism and neoimperialism, the invasion of Western culture and modernity, or the decline of Thai culture and Buddhism. Some were brought up in the radical environment under Chinese schools with radical teachers.9 These discontents converged to fight military rule, which they blamed for these social problems. They converged under the CPT's umbrella whether they believed in communism or not because it provided the most systematic and rigorous explanation of what ailed Thai society in their limited knowledge. In this light, the deradicalization could be seen as a return to their diverse nonradical origins, instead of a departure from some radical essence.

中文译文

此外，正如我在别处论证的那样，1973年起义是泰国政治中两股平行力量上升的转折点：人民民主与王室。　虽然此后三年有许多人变得激进，但不少人直到今天仍然支持王室，也有很多人两者都不属于。再者，泰国共产党的激进主义容纳了当时多种不同的不满，是占主导地位的另类话语。人们受激进话语吸引的原因各异：反对军人统治、资本主义和新帝国主义，反对西方文化和现代性的入侵，或忧虑泰国文化与佛教的衰落。有些人在由激进教师执教的华文学校环境中成长。

这些不满汇聚为反军人统治的斗争，因为人们把社会问题归咎于军方。无论是否真信共产主义，他们都汇集在泰共旗帜之下，因为在其有限认知中，泰共提供了关于泰国社会病症最系统、最严密的解释。由此看来，去激进化可以理解为回归其各不相同的非激进起点，而不是背离某种激进本质。

**[P013]**

英文原文

The second notion of the Octobrist as an identity does not resolve the problem of who is or is not an Octobrist, but the problem becomes irrelevant for two reasons. First, the narrative of the Octobrists is about people who claimed to be, and who were understood by others to be, Octobrists, regardless of whether they were radicals or the degree to which they were radical. Second and more important, in this notion, the deradicalization narrative falls apart.

中文译文

把十月人理解为身份的第二种观念，并不能解决谁是或不是十月人的问题，但基于两个理由，这个问题不再重要。第一，十月人的叙事讲述的是那些自称十月人、也被他人认作十月人的人，无论他们是否激进，或激进到什么程度。第二，也是更重要的，按照这一观念，去激进化的叙事本身便不再成立。

**[P014]**

英文原文

Kanokrat's plot begins with the assumption of radical essence as the original point from which these Octobrists have departed or, in her words, been transformed and reframed.10 To many Octobrists, their radical past was only a slice of their lives, though a remarkable one with lasting impacts. Their deradicalization can be understood simply as part of the normal process of growing up and maturing, the life struggles of the ordinary people whose lives were turned upside down by radicalism and its failure. This is not to deny the radical history of the movement in the past or the deradicalization of their memories. Yet the deradicalization of these individuals was ordinary, not a crafty manipulative act by people trying to deny their pasts to benefit in the present. They simply changed, probably heavily informed and shaped by their predisposition before the radical experience and by the context of their life after the revolution years. This approach does not deny that these former radicals have deradicalized. Instead, the deradicalization was not degenerative, not negative, just the ordinary changes of ordinary human things. It was not an attempt to deny the radical past but to come to terms with the past in a postradical phase of life.

中文译文

卡诺克叻的故事从激进本质的假设出发，认为十月人后来离开了这个原点，或者按她的说法，进行了转变与重新框定。　　对许多十月人而言，激进过去只是人生的一个片段，虽然非同寻常、影响深远。他们的去激进化可以简单理解为正常的成长与成熟过程，是生活被激进主义及其失败彻底颠覆的普通人在挣扎求生。这并不是要否认运动的激进历史，也不否认他们记忆的去激进化。但这些个人的去激进化是普通的变化，而非试图否认过去、以便在当下获利的人的精巧操控。他们只是发生了变化，很可能深受激进经历前的倾向和革命岁月后的人生处境所影响、塑造。这种研究路径不否认前激进人士已经去激进化，只是说这并不意味着堕落、也不必然是负面变化，而是普通人的普通人生变迁。这不是试图否定激进过去，而是在后激进的人生阶段与过去达成和解。

## The Praxis of Memory

记忆的实践

**[P015]**

英文原文

In fact, many activists of the 1970s had actually been back before the Octobrist identity was born in 1996. They had not taken a long break after their disillusionment with radicalism. As Kanokrat superbly tells their stories, from the 1980s through the 1990s, they had been active and risen to high levels in social movements for development, education, human rights, and various other social causes.11 They were successful in the arts, music, and cultural domains. Some emerged notably in the business world and in parliamentary politics. Kanokrat attributes their successes to their extraordinary skills and experiences with past activism, which became useful assets in their careers. Apart from those skills was their general disposition as engaged citizens, regardless of their left, right, radical, or conservative politics. As their lives and careers grew more stable, they responded to calls for citizens to engage, such as in the uprising of May 1992 and the movement for political reform afterward.12 On those occasions, many of these former activists were present in various roles— as leaders, organizers, and rank-and-file operators—although they did not assume, and were not recognized by, any collective identity relating to their past. The Octobrists were active before they were recognized as such. Their collective disposition to be politicized and engaged citizens is the legacy from their past. It was a blessing sometimes and a curse eventually.

实际上，1970年代的许多活动人士，早在1996年“十月人”身份出现之前就已重返社会活动。他们并未因为对激进主义幻灭而长期沉寂。卡诺克叻精彩地讲述了他们的故事：从1980年代至1990年代，他们一直积极参与发展、教育、人权及其他社会议题的运动，并在其中担任重要角色。

他们在艺术、音乐和文化领域取得成功，有些人在商业界和议会政治中崭露头角。卡诺克叻把成功归于他们过去投身运动所积累的非凡技能与经验，这些在后来的事业中成为宝贵资产。除了技能，他们还拥有积极参与公共事务的公民倾向，无论其政治立场是左派、右派、激进派还是保守派。随着生活和事业逐渐稳定，他们回应了参与公共事务的号召，例如1992年五月起义及随后的政治改革运动。 在这些场合，许多前活动人士扮演不同角色——领导者、组织者和基层行动者——但他们既没有认领、也没有被他人赋予与过去有关的某种集体身份。十月人在被认作十月人之前就已经活跃。他们作为政治化、积极参与的公民之集体倾向，是过去留下的遗产；它有时是一种福分，最终却也成了诅咒。

英文原文

The cathartic moment at the 1996 commemoration gave rise to enormous enthusiasm and energy among the former radicals. Seksan’s announcement of their return to active political engagement under the new identity was a positive opportunity. It raised their profiles, individually and collectively. The collective identity, however, did not help formulate a particular collective agenda, let alone a coordinated movement. Their past activism in itself was not necessarily relevant to the contemporary politics of the 1990s. To the contrary. “Octobrist” was a broad collective identity mediated by the past, like a school alumni identity, rather than a social movement. As it turned out, these energetic citizens drove the various civic groups, advocacies, and political organizations of diverse politics and ideologies. It was common to find

the former radicals taking up with other nonradical and even conservative friends for diverse causes, not just radical ones. Furthermore, not all of them were successful, despite their extraordinary skills and qualities or the lack thereof.

1996年纪念活动中的情感宣泄时刻，让前激进人士迸发出巨大的热情和能量。色山宣布他们将以新身份重新积极参与政治，是一个积极的契机，提高了他们个人和集体的声望。然而，这种集体身份并未帮助他们形成明确的共同议程，更谈不上协调一致的运动。他们过去的行动经历未必与1990年代的当代政治相关，甚至恰好相反。“十月人”是以过去为纽带的宽泛集体身份，有点像学校校友身份，而不是一场社会运动。最终，这些充满活力的公民推动了政治立场和意识形态各异的公民团体、倡议活动及政治组织。前激进人士常常会与非激进甚至保守派朋友一起，为各种而非仅仅激进的目标行动。况且，尽管具备或不具备非凡技能与品质，他们也并非人人成功。

英文原文

A few illustrations of political action groups associated with the Octobrist identity should suffice. But, first, consider the general context at the turn of the millennium. The two most pressing situations in the country in the mid-1990s were political reform and the economic crisis. The former was a consequence of the May 1992 uprising that prompted the nonmilitary elites and the public alike to demand more stable, effective, and sustainable democracy. The tension reached its breaking point in mid-1995. Fortunately it was resolved and eventually resulted in political reform under the constitution of 1997. The latter was the global financial crisis, which started with the bursting of the bubble economy in Thailand in 1997 that triggered global economic turmoil.13 The domestic consequence of the latter situation was enormous and lasted more than a decade, especially for Thailand’s middle class.

举几个与十月人身份有关的政治行动团体的例子即可。但首先，要看千禧年之交的整体环境。1990年代中期，泰国最迫切的两种局势是政治改革与经济危机。前者是1992年五月起义的后果：它促使非军方精英与公众都要求更加稳定、有效和可持续的民主。紧张局势在1995年中达到临界点，幸而最终得到化解，并促成了1997年宪法框架下的政治改革。后者则是全球金融危机，它始于1997年泰国泡沫经济破裂，并引发全球经济动荡。 后一种局势对国内的影响巨大，尤其对泰国中产阶级而言，影响持续了十多年。

英文原文

The first political action group I consider is the official organization of, by, and for the Octobrists. After the 1996 commemoration, a group of organizers continued to act as coordinator among the Octobrists. In 1997, they formally formed the October Network (Khrua khai duan tula) to maintain the network of the October people and to organize collective activities from time to time. At first, the group organized public forums related to past October events and the annual commemorations. It did not take long before it turned its attention to political action. Many commemorative events addressed the political issues at the time such as

the perils of globalization and neoliberalism, and the necessity for political reform. The newsletter of the network, Suebsan (Carry on), featured articles and news about the history of the two October events, the commemorations, and also current political issues, domestically and internationally.14 Often during those years, the group's name appeared in political campaigns of the day as well, especially the protests against the government.

我讨论的第一个政治行动团体，是十月人为自己成立的正式组织。1996年纪念活动之后，一群组织者继续担任十月人之间的协调者。1997年，他们正式成立“十月网络”（October Network; Khrua khai duan tula），以维系十月人的联系，并不时组织集体活动。起初，该团体举办与过去十月事件有关的公共论坛和年度纪念活动。很快，它开始转向政治行动。许多纪念活动讨论当时的政治议题，例如全球化和新自由主义的风险、政治改革的必要性。网络的通讯《继往开来》（Suebsan, Carry on）刊登两次十月事件的历史、纪念活动，以及国内外当前政治议题的文章与新闻。　　那些年，这个团体的名字也经常出现在当时的政治运动中，尤其是反政府示威。

英文原文

Like many activist groups of the time that were supposed to represent its members but did not necessarily do so, lending the name to a protest was mostly a decision made by a small group of leaders. The Octobrists never showed their force as a collective beyond the commemorations of the October events. Above all, it is fair to say that the network did not have and could not find any unique agenda. Despite meetings with the fellow Octobrists in every region around the country since 1999, the leading essay for a newsletter in 2001 asked in its title “The Octobrists: what are we supposed to do?” The essay rambled on about how individuals could do this or that without any particular suggestion for a collective agenda for the Octobrists.15 When Thai politics became polarized in the mid-2000s, the actions by the network in support of one faction against another led to internal fractures within the group. The network quietly dissolved.

Another group, the Prachachon phua prachathipptai (People for Democracy), was an Octobrist group that tried to carry on the agenda and spirit of the popular democracy of the 1970s in the context of the 2000s. Known by its acronym PxP (por khun por), this group was definitely Octobrist, led by Seksan himself. With the revival of their energy and passion for politics, a group of Seksan's friends had convinced him to lead a civic group whose key members were

former activists who by then were in various professions but were mostly entrepreneurs and businessmen.16 From the discussion group in 1999 to the action group of 2000, the PxP group was formed in response to the economic crisis in the era of political reform.

Dismayed by elected politicians, viewed as being hand in glove with transnational capitalism and neoliberalism, the group was determined to build up and strengthen people’s power, especially among the lower classes and in communities, as a counter to the state.17 Its activities consisted mostly of holding public forums, especially among leaders of various sectors outside Bangkok, and producing a news letter. The group saw its role as mentoring local people, enabling them to analyze a problem and find the solution by themselves. As reported in its monthly newsletter, the issues the group was interested in ranged from the general political situation, the constitution, political reform, people’s organizations and movements, multinational corporations, transnational capitalism, and consumerism, to various local disputes related to those issues, and so on.18 The newsletter featured those subjects plus articles about labor disputes and the labor movement, the crisis in Thailand’s agrarian sector, the history of the 1932 revolution, the agrarian situation in Latin America, the Zapatista movement in Mexico, the people’s movement in Bolivia, and more. As an illustrative case of community rights, the group launched a campaign in 2001 to legalize local liquor, pitting it against the monopoly of the liquor industry in Thailand by a few powerful families.19

By 2002, it was gradually fading from public view. Its newsletter became irregular and quietly disappeared. The group fizzled and was formally dissolved in 2004.

## The Extraordinary Octobrists

非凡的十月人

**[P023]**

英文原文

Despite these less than stellar cases, the many successful Octobrists, well documented by Kanokrat, gave rise to the image of the Octobrists as a potent political force.20 Most widely known is their role in the most successful political party in Thai history, the Thai Rak Thai (TRT) party of Thaksin Shinwatara, which won every election between 2000 and 2006 by a landslide before it was ousted in 2006 by a military putsch. TRT's unprecedented success—from its ideas, policy crafting, and strategic planning, to its political operation and tactics, and its election machines—was partly attributed to a number of Octobrists in key positions within it.21 This was the beginning of the hero narrative for the Octobrists, a narrative that focuses on their success and extraordinary abilities, making the TRT-Octobrists unduly representative of the group as a whole.

尽管有上述并不出色的例子，卡诺克叻详尽记述的许多成功十月人，仍使人们形成了十月人是一股强大政治力量的印象。　　最广为人知的是，他们参与泰国历史上最成功的政党——他信·西那瓦（Thaksin Shinawatra）的泰爱泰党（Thai Rak Thai，TRT）。该党从2000年至2006年每次选举均以压倒性优势获胜，直到2006年遭军方政变推翻。泰爱泰党空前的成功，从理念、政策设计、战略规划到政治运作、策略与选举机器，部分归功于担任党内关键职位的一批十月人。这成为十月人英雄叙事的起点：它聚焦成功与非凡能力，使泰爱泰党内的十月人被不恰当地视作整个群体的代表。

The hero narrative that emphasizes the extraordinary ability and success of the Octobrists is problematic. It cannot account for the many Octobrists who were ordinary or for those groups that failed. Moreover, it implies that failures—such as the PxP and the October Network—and those involved—such as Seksan and others—were not smart or skillful enough. A better approach is to look beyond personal attributes, to try to understand the political, social, institutional, or contextual conditions that contributed to their success and failure. To do so would require a careful examination beyond what I am prepared to do here. Nonetheless, I would like to make one observation, which is related to my suggested approach that takes the Octobrist as a political identity and a praxis of memory.

The Octobrist identity contributed to the creation, the raison d’être, and the political character of both the October Network and the PxP. They were activist groups on the fringe of the political mainstream. In the view of social movement theories, these fringe groups had limited political opportunities and other resources. Even the extraordinary personal attributes of Seksan and his high caliber team could not make the PxP successful. On the other hand, the successful Octobrists, such as those in TRT, were in established social institutions, like political parties, or professions like media and law. They were able to grow and spread their wings within the established framework of mainstream institutions, where resources could be mobilized and opportunities were abundant. The Octobrist identity contributed nothing to their organizations’ raison d’être or their operations, but it did not encumber them.

It is true that most of the successful Octobrists deradicalized their past. As Kanokrat describes, this was done by emphasizing 1973 October as a major moment in the progress for democratization, and by glossing over the radical period and the October 6 massacre as an unfortunate bump in the road to democracy.22 It was the same for everyone, though, so the

new framing of their past did not determine success or failure. The Octobrist identity was an asset when it enhanced personal attributes that served an established institution or profession. But it could become an insurmountable burden if it became the rationale or essential purpose of a group.

但所有人都如此，所以对过去的新框定并不能决定成功或失败。当十月人身份增强了服务于成熟机构或专业职业的个人特质时，它是一种资产；但如果成为一个团体的理由或根本目标，就可能变成无法克服的负担。

英文原文

The narrative of extraordinary success is problematic for another reason, that it is either a hagiographic narrative as described, or its opposite, one of disenchantment. Both require a certain sensationalism: glorifying the great men or women or using their extraordinary attributes as a pretext for eventual disappointment. To put it another way, the disappointment or disenchantment with the false hero demands a retrospective explanation. The answer is usually to be found in how the hero has degenerated, misused his extraordinary attributes, or made a serious mistake. The hero narrative turns into an antihero one by taking stock of how low the hero has fallen from his original point. This is the case for the story of the Octobrists who were seen eventually as fallen heroes.

英文原文

By the mid-2000s, talk about the Octobrists drew mockery and disdain. Disappointment in them arose in many people, especially activists of later generations and young radicals. Central to the disappointment and contempt were the extraordinary TRT-Octobrists. From 2001 to 2006, when it was in power and even after, the Thaksin administration became an increasingly polarizing element in Thai politics. On the one hand, its effective style of governing and many of its policies earned overwhelming support from the public across constituencies. Many became fanatical supporters. On the other hand, the government and Thaksin himself were increasingly scorned by critics and opponents for various reasons—his government's controversial policies and actions that disregarded human rights, its abuses of power, and especially Thaksin's alleged corruption and conflicts of interests. His demagoguery often made things worse.23 The Octobrists who had been credited with Thaksin's unprecedented success remained key to the

government, thus becoming collaborators who bore the brunt of growing dissatisfaction. At the October anniversary in 2003, for example, the Octobrist identity was likened to a fraudulent political brand because the Octobrists had lost their souls to the point that “the majority of Thais loathed them.”24 The more loyal to Thaksin the TRT-Octobrists were, and they often came out in defense of their boss and his mistakes, the more quickly they became villains. Many fellow Octobrists, including the October Network, urged them to distance themselves from Thaksin, to no avail.25 What had been a heroic discourse for the Octobrists in the late 1990s had turned into one of disenchantment in less than a decade.

英文原文

But Thailand’s political crisis since the mid-2000s was more complex than simple dissatisfaction with the government. As many scholars and analysts have pointed out, the crisis reflected structural changes in the country’s socioeconomy and demography. Thaksin the billionaire could represent the poor, the lower class, and rural society because electoral democracy was a political system in which these disenfranchised populations could make their voices heard and their demands met, effectively bypassing a self-serving, highly centralized bureaucracy that primarily served the elites. The majority of Thais can exercise their power via politicians, regardless of the latter’s corruption. Thaksin and his party were smarter about responding to these disenfranchised people than other parties and the old establishment, hence their landslide electoral victories. However, the palace, the bureaucracy, the military, and those elites who had enjoyed royalist democracy for decades struck back, with support from the majority of the Bangkok middle class, who disdained Thaksin and his rural and provincial supporters.26

It is fair to say that the majority of the Octobrists were against Thaksin and supported the anti-Thaksin movement, the Yellow Shirts. Not understanding the conflict beyond the frame of bad government versus good protest that they were familiar with and had been for decades, they saw the Thaksin government as a “parliamentary dictatorship” that was a proxy for threatening capitalism. Some of them became prominent leaders of the anti-Thaksin movement.27 Amid the conflict between these Yellow Octobrists and the TRT ones, quite a number remained cautious—cynical toward both Thaksin and the Yellow Shirt movement. The fractures among the Octobrists mirrored the increasing polarization of Thai politics. The October Network, for example, fractured seriously in early 2004 when it suspended any political engagement other than the October commemorations.28 During the Yellow Shirt protests that began in early 2006, however, the movement called for the military and the palace to intervene, asking for a “royal government” to replace the elected one, even illegally. Thanks to their distrust of both the military and the palace, many Octobrists left the Yellow Shirt movement. The majority remained, however. As the Yellow Shirt movement turned even more royalist and antidemocratic as the protest went on, the Octobrists became royalist and antidemocratic as well.

The first round of conflict resulted in the royalist coup in 2006, ending electoral democracy and bringing back military rule for the first time since 1992. The coup was the last straw for many

Octobrists, the ultimate price after so much sacrifice and lost friends. Although the majority of Octobrists continued to oppose Thaksin, the number who were anticoup and antimilitary rule—the Red Shirts—regardless of their stance toward Thaksin, grew rapidly and became quite large. The fragmentation of the Octobrists was public, and all shades and colors vehemently disparaged one another (myself included). One accused the other of selling out to the oppressive capitalist (Thaksin). In return, they were pilloried for betraying their October ideals and lost friends by supporting the military and the monarchy against democracy.

The commemoration of the thirtieth anniversary of the October massacre in 2006, one month after the coup, was obviously tense. It was planned to commemorate the two Octobers together. However, according to the event brochure, the program featured Yellow and Red views of the past, but separately, in different forums and different time slots. The split was visible not only in the politics of the 2000s but in their memories as well. A young scholar smartly pointed out comparable features of the coup in 2006 and the one in 1976: the ideological contentions in both cases (unlike most other coups in Thailand, which were the result of factional rather than ideological politics), the threat to the monarchy as the pretext of both, and the right-wing mass mobilization leading to both coups. The major difference, he noted, was that in 2006 the majority of the Octobrists abdicated their political principles against military dictatorship.29 In 1976, the Octobrists were the target of the right wing, but in 2006 were part of the right wing.

The crisis intensified after the 2006 coup, leading to several clashes and tumultuous incidents, including the one between the Yellow Shirts and the police on October 7, 2008, that resulted in one dead, and the massacre of the Red Shirt protesters in May 2010 that resulted in ninety-two dead, the highest political fatality in Thai history. The former incident was a clash of antidemocracy protesters against the elected government. For a few years, supporters of the Yellow movement, which included a large number of the Octobrists, likened their clash with the police to the October 6 massacre only because it was a violent clash with the police. Such comparisons disappeared after a few years. Perhaps they realized that it was a bizarre comparison given the contrasting political contexts of the two events: one a pro-democracy protest crushed by the military and the palace, the other an antidemocracy rally supported by the military and the palace. Or perhaps they realized that if they reminded the public of the October 6 massacre, the public might find the 2010 crackdown on the protesters against the government more apt: the pro-democracy politics of the victims, the use of excessive force against the besieged protesters, and the false pretext accusing the protesters of being antimonarchy—these were similar to the massacre in 1976.30 Above all, as in 1976, the 2010 massacre appears to have been backed by the political establishment, namely, the military and the palace.

英文原文

After the 2010 massacre, some Yellow Octobrists expressed delight and provided justifications for the brutal suppression. This shameless behavior was not lost on the rest of Octobrists. Whatever side one may take, to support the killing of political opponents crossed the line for these former victims of political killings. The October commemoration in the year 2010 was unforgiving to the Yellow Octobrists, and they were strongly condemned by old friends. Given the pretext, the actions, the politics, the scale of violence, and the fatalities, all comparable to 1976, a prominent journalist who was an Octobrist himself castigated his old friends in disgust for betrayal. It was unthinkable, he wrote, for victims of the previous massacre to condone 2010, let alone to support it. “Doing this, you no longer possess even a tiny bit of the October spirit.”31 At the commemoration that year, the parallels between the two massacres were mentioned repeatedly, especially the tacit reference to the alleged role of the palace.

Meanwhile, the Yellow Octobrists were conspicuously silent about the commemoration. A year later in 2011, shortly before October, a few Yellow Octobrists on the organizing committee of the commemoration of October 6 announced their withdrawal from the committee. The reason given was that the commemoration of the past massacre was becoming too aligned with that of the Red Shirts. They wanted the commemoration to be strictly about the past and have nothing to do with the present. This phenomenon is telling. The Red tragedy had found its precedent in that of October 6. The memory of October 6 was gradually preempted by the pro-Red Octobrists, who have been in charge of every October 6 commemoration since then. The Yellow Octobrists had become alienated from their past.

The Reds were not alone in calling up the October 6 memory to serve their politics. The arts exhibit, “Flashback’ 76,” which targeted Samak after his controversial remark to CNN in 2008 (mentioned in chapter 8), was a good example. All the artists involved were supporters of the Yellow movement. This exhibit displayed a selective memory of October 6 with its absence of even the slightest allusion to perpetrators other than Samak, who at the time was a proxy of Thaksin. This was possibly not a memory slide but political intent. The artists appear to have chosen to live with selective memory, ironically, the same criticism they made against Samak. In 2010, during the Red protest against the military-backed government, a counterdemonstration was held against the Reds. A placard called the Reds nak phaendin (scum of the earth), the same name the right-wing agitators had called the leftists in 1976 to dehumanize them. Under a tree at the demonstration site, a red, long-sleeved shirt was hung from one of its branches as if a body had been hanged. The sign on the red shirt read “pho sa thi” (enough!). This disturbing allusion to the 1976 massacre suggested that those at this counterprotest did not lack the knowledge of that event, had not forgotten October 6. The meaning of the past massacre, for them, was clear too.

In 2014, another antidemocracy mass protest took place under the leadership of the People’s Democratic Reform Committee (PDRC).32 The PDRC’s demands were clear, though bizarre: no more electoral democracy and no more elections because they always resulted in the dictatorship of the majority. Instead, they called for royalist military rule, calling it Thai-style democracy. In their several demonstrations, a hundred former CPT revolutionary soldiers showed up in the uniform of the revolutionary army. They signed a petition to the king asking for a royal government to replace the elected one they opposed. An Octobrist writer exclaimed, “[This is going] too far!”33 Meanwhile, the PDRC adopted as its anthem the famous song “Su mai thoi” (Unretreating struggles), which was the anthem of the October 14 uprising.34 Composed in 1973 by Seksan during the democratic uprising against military rule, the song was sung in 2014 by thousands of the PDRC demonstrators against democracy and for the military rule. The PDRC protests eventually led to another military coup in May 2014. Not only did this coup sweep the country’s deep, structural conflicts under the rug, it also brought to power the most authoritarian regime since the end of the Thanin government in 1977.

2014年，在人民民主改革委员会（People’ s Democratic Reform Committee，PDRC）的领导下，又发生了一次反民主的大规模示威。　　该委员会的诉求十分明确，却也荒诞：不再实行选举民主，不再举行选举，因为选举总会导致多数人的独裁。相反，他们要求保皇派军人统治，并将其称为泰式民主。在数次示威中，一百名前泰共革命战士穿着革命军制服现身。他们联名上书国王，请求建立王家政府，取代他们反对的民选政府。一位十月人作家惊呼：“［这也］太过分了！”　　同时，人民民主改革委员会把著名歌曲《斗争不退缩》（Su mai thoi）作为会歌；这首歌原本是10月14日起义的赞歌。　　它由色山在1973年反军人统治的民主起义期间创作，2014年却被成千上万名该委员会的示威者高唱，以支持军人统治、反对民主。2014年5月，这些示威最终引发另一次军事政变。政变不仅把国家深层的结构性冲突掩盖起来，而且使泰国出现了自1977年他宁政府结束以来最具威权性质的政权。

## Death of the Octobrists

**[P037]**

英文原文

During the decade-long crisis, the rivals often expressed their wonder at why and how their old comrades had changed so much. On the one hand, why did some Octobrists take a right turn and support the military and the monarchy? On the other, how could Octobrists support an authoritarian demagogue who was a proxy of predatory global capitalism? Many scholars, too, have tried to explain the same phenomena.35 Explanations are abundant, but each seems inadequate. Perhaps they are all correct to some extent in one way or another. As the animosity among the Octobrists grew larger, Seksan tried in vain in his successive public lectures in September and October 2013 to remind everyone of the October ideals that all of them were supposed to share.36 The criticism and disappointment with the Octobrists went far beyond the Octobrists themselves to the public, which had once had high expectations of them for their contributions to democracy. From every side in the polarized politics, people derided their missteps, mistakes, and failure, and probably concluded that the Octobrists had betrayed October politics and spirit in one way or another. Young activists and radicals, probably including Kanokrat, who had once looked up to the Octobrists with admiration as their predecessors, were disenchanted.

在长达十年的危机中，对立双方常常困惑，为何旧日战友会发生如此巨大的变化。一方面，有些十月人为何向右转，支持军方与王室？另一方面，十月人又怎能支持一个代表掠夺性全球资本主义的威权煽动家？许多学者也尝试解释这些现象。　　解释不胜枚举，却都显得不足。或许从某种角度看，每一种解释都有一定道理。随着十月人之间的敌意日益加深，色山在2013年9月及10月一系列公开讲座中，徒劳地试图提醒大家注意原本应共同拥有的十月理想。　　对十月人的批评与失望远远超出了他们自身，蔓延到曾因其促进民主的贡献而寄予厚望的公众。在两极化政治的各阵营中，人们都嘲笑他们的失策、错误与失败，或许认为十月人以某种方式背叛了十月政治及其精神。曾经仰慕十月人、视他们为前辈的年轻活动人士和激进派——其中可能包括卡诺克叻——如今也感到幻灭。

英文原文

Where do those high expectations and the admiration come from? They arise in the illusion that the Octobrists were not merely ordinary political operators. They were supposed to advocate democracy, justice, dedication, and sacrifice, unlike corrupt politicians and military junta. The illusion also stemmed from the perceptions of the historical October movements, that is, from memories of the Octobrists' past. To put it differently, the Octobrists were believed to be real people. In fact, they were a constructed political identity, thanks to the noisy memories on the edge of the silence surrounding twenty years. That constructed political being was loaded with high expectation and informed by heroic discourse. The higher the expectation and the more unrealistic the illusion, the further it could fall. And it did fall.

那些高度的期望和仰慕从何而来？它们源于一种幻觉：十月人并非普通的政治行动者，人们相信他们应该倡导民主、公正、奉献与牺牲，区别于腐败政客和军政府。这种幻觉也来自人们对历史上十月运动的理解，也就是对十月人过去的记忆。换句话说，人们相信“十月人”是真实存在的一类人。事实上，它是一种经由长达二十年沉默边缘喧嚣的记忆而建构的政治身份。这个被建构的政治存在承载了很高的期望，并受到英雄话语塑造。期望越高、幻觉越不现实，跌落的距离就越大。它确实跌落了。

英文原文

The Octobrist collective was a praxis of memory. Their common property was the shared experience in the past, not their views of the past in later decades and certainly not their present politics. The Octobrist identity can be meaningful or relevant today only by invoking the past. It may be inspiring or intimidating, boast-worthy or contemptible; it may be a valuable asset for some, such as those TRT-Octobrists, or a liability to others. As a praxis of memory, it does not determine or foretell the politics of those individuals in the present. As a collective, Octobrists may take action together in the present only if it is about their past, a nostalgic action such as a commemoration. As a praxis of memory, such as a school alumni association, it does not inform an ideological or political community or a collective action or a social movement in the present. To keep the memory of October 6 belonging to all Octobrists, its praxis must avoid present politics.

中文译文

十月人的集体是记忆的一种实践。他们共同拥有的是过去的经历，而不是后来几十年对过去的看法，更不是当下的政治立场。只有援引过去，十月人身份在今天才可能有意义或相关性。它可能鼓舞人或使人却步，可能值得自夸或遭人鄙视；对泰爱泰党中的十月人而言可能是有价值的资产，对其他人则可能是负担。作为记忆的实践，它既不决定、也不预示个人当前的政治立场。作为集体，十月人只有为了过去的事情，才可能在当下共同采取行动，比如纪念活动这样的怀旧行动。就像校友会一样，作为记忆的实践，它并不能在当下形成一种意识形态或政治共同体，也不能构成集体行动或社会运动。若要让10月6日的记忆属于所有十月人，其实践就必须回避当下政治。

英文原文

Nonetheless, the memory of October 6 had inspired some to believe unrealistically that as a collective, the Octobrists could make a difference in the 2000s. The fate of the October Network and the PxP were telling. The discourse of the Octobrist identity has also created romantic expectations of them so that disappointment was inevitable. Even the mild political actions of the October Network and the PxP went beyond its limitations. When the Octobrists tried to take on certain roles in the 2000s, it became clear that their political identity was inoperable because its meaningfulness was irrelevant to the present. In the polarized politics of the present, the identity split and the memories divided because they were not suited to the present. The same memories that had created the romanticized Octobrist identity set them up for failure because the relevance of the memories and their praxis to the present had limits. This is perhaps a fundamental logic of the praxis of memory.

中文译文

尽管如此，10月6日的记忆仍鼓舞一些人不切实际地相信，十月人作为集体能够在2000年代有所作为。十月网络与 PxP 的命运足以说明这一点。十月人身份的话语还使人们对他们抱有浪漫化期望，失望因此不可避免。就连十月网络和 PxP 相对温和的政治行动，也超出了这种身份的限度。当十月人试图在2000年代承担某种角色时，便清楚显示他们的政治身份无法运作，因为它的意义与当下并不相关。在当前两极化的政治中，身份和记忆双双分裂，原因在于它们不适合当下。正是那些创造了浪漫化十月人身份的记忆，把他们引向失败，因为这些记忆及其实践与当下的关联存在限度。这或许就是记忆实践的一种根本逻辑。

英文原文

In October 2010, Prajak Kongkirati, an expert on the history of the 1973 uprising, advised that it was time for the Octobrists “to go to bed.”37 His advice was polite compared with an earlier comment from the disenchanted Octobrist journalist who, in 2007, published a book of essays that contrasted seven pairs of opposing Octobrists (myself included). In my opinion, the book is awful and poorly written. The essays are full of inaccuracies, the prose crude and rude, the tone sanctimonious. It offers no thoughtful argument, not even a slight analysis of the split. Despite these flaws, its title, Khon tula tailaew (The Octobrists are dead), turns out to be prophetic.38 Of course the author knew that the Octobrists as real people are mostly not dead yet. But the Octobrist as an identity and a praxis of memory probably is. It died not because it has split but perhaps because the October 6 memories have been overworked in Thailand’s polarized politics to the extent that the noise of the memory became too coarse to make any sense or to inform any meaningful politics.

中文译文

2010年10月，研究1973年起义历史的专家普拉乍·功吉拉蒂（Prajak Kongkirati）劝十月人“该上床睡觉了”。 与另一位幻灭的十月人记者此前的言论相比，这个建议已经相当客气。那位记者2007年出版了一本随笔集，将七对立场相反的十月人放在一起对照（包括我自己）。在我看来，这本书很糟糕，写得也不好。随笔里充满事实错误，文字粗俗无礼，语气自以为是，既没有深思熟虑的论证，甚至也没有对分裂作哪怕一点分析。尽管有这些缺陷，书名《十月人已死》（Khon tula tailaew）却成了预言。 作者当然知道，作为真实人物的十月人大多数还活着。但作为身份与记忆实践的“十月人”，或许已经死亡。它的死亡并不只是因为分裂，也许更因为10月6日记忆在泰国两极化政治中被过度使用，以至记忆的喧嚣变得粗糙无序，再也无法传达意义或为任何有意义的政治提供指引。

The stingiest verdict on the Octobrists belongs to one of the Octobrists. In 2018, after years under one of the harshest dictatorial regimes in Thai history, which came to power partly with the help of the Octobrists, he wrote this on social media (Facebook):

英文原文

People of different generations usually have distinctive identities, for they have left good and not-so-good legacies to society and to later generations. . . . There was the Octobrists of 1973–1976, a generation whose legacies can still be felt today. It was a generation of absolute, ultimate failure. They were defeated in the past and in the present. And now 90 percent of them serve and worship the dictatorship. All recent political crises, from [the antidemocratic coup] in 2006 to the coup and military rule since 2014, have been the accomplishment of this generation.39

不同世代的人往往拥有鲜明的身份，因为他们为社会和后世留下了有益与不那么有益的遗产……1973至1976年间有一代十月人，其遗产今天仍可感受。这是一个彻底、完全失败的世代。他们过去败过，现在也败了。如今，他们当中百分之九十在侍奉、崇拜独裁统治。最近的所有政治危机，从2006年［反民主政变］，到2014年以来的政变和军人统治，都是这一世代的成就。
